Alerta, 1979 César Chávez Ilan Stavans, 2010-02-09 Labor leader social justice advocate Chicano leader and humanitarian are only some of the multifaceted renderings of César Chávez. Ilan Stavans has compiled essays and first person narratives that capture the multiple dimensions of this storied figure. To that end, Stavans's collection of timely articles separates fact from fiction or, as he puts it, the objective is the opposite of hagiography. Broken into two sections, César Chávez explores a variety of topics central to understanding the actual person instead of a shadowy apparition. The first part, *Considerations*, offers critical assessments of Chávez's life that utilize different approaches to understanding his life, including cultural studies critiques, historical narrative that provide invaluable context, and even eulogies following his untimely death. The second section, *Voices*, includes personal reflections on Chávez's life that explore his religiosity, his role as an everyman, and the decline of the United Farm Workers union. The title is certain to assist readers in better comprehending this groundbreaking labor leader.

*Ibero-American Ecocriticism* J. Manuel Gómez, 2024-02-19 *Ibero-American Ecocriticism: Cultural and Social Explorations* presents a distinct view of the diverse social and physical geographies of the Americas, their political and cultural connections to the Iberian Peninsula, and their relationship to the environment in its diverse representations. The topics, ranging from myths and legends, poetics, young adult literature, arts, and performance to cinematography by women, dialogue across chapters reveal a persistent usage of nature and environment as recurrent themes. Through visual and plastic arts, as well as poetic narratives of social utopias and dystopias, the contributors provide original readings on the effects of societal views and struggles to protect and consciously exploit the natural world. The uniqueness of this book relies therefore on the geographical and cultural approach to the poetics of nature and its metaphorical and physical embodiment, place and geography, through utopian and dystopian world recreation and representation, and finally, the nexus with ecology and social actors.

**Armed Frontier** Luis Alberto García-García, 2025-12-16 *Armed Frontier* is a deeply researched and yet accessible history of border skirmishes from mid-colonial times to the first Texas secession. The history of warfare and armed organization during the colonial period and early nineteenth century in southern Texas and northeastern Mexico remains

largely untold Previous studies either cover the influence of warfare tangentially or ignore its importance This study explores the topic through an examination of the inhabitants of four settlements San Antonio and Laredo in Texas as well as Lampazos and Bustamante in northeastern Mexico All four of those settlements had Hispanic Mesoamerican and Native American elements that intermingled adapted and evolved over several centuries creating a distinctive society in which armed service and military culture played a central role in social organization This work uses multiple archival records many previously unknown from Mexico Texas and Spain It places the local and micro historical aspects of borderlands military culture into the broader context of the Spanish Empire Mexican nationalism and the Atlantic World Armed Frontier focuses on how military organization and methods of warfare in these regions were influenced by the heritage of medieval Iberian martial traditions It provides a different analysis of borderland societies through several historical periods including the Reconquista the conquest of Mexico the colonial period the wars of independence the Mexican Republic and the age of federalism and centralism all against the backdrop of a burgeoning geopolitical rivalry with the United States The themes covered in the book illustrate the complexities of borderlands societies through a linear analysis of local sources inserted in a broad geopolitical context and accessible to a wide audience
