American Ideologies Today:

A Citizen's Guide to American Ideology Morgan Marietta, 2012-03-29 Conservatives and Liberals often resort to cartoon images of the opposing ideology relying on broadly defined caricatures to illustrate their opposition To help us get past these stereotypes this short punchy book explains the two dominant political ideologies in America today providing a thorough and fair analysis of each as well as insight into their respective branches To help us understand the differences between the two contrasting ideologies Morgan Marietta employs an innovative metaphor of a tree growth from ideological roots to a core value expanding into a problem that creates the competing branches of the ideology This approach suggests a clear way to explain and compare the two ideologies in an effort to enhance democratic debate *A Citizen's Guide to American Political Ideologies* is a brief non technical and conversational overview of one of the most important means of understanding political rhetoric and policy debates in America today

Ideologies and Political Theory Michael Freeden, 1996-10-25 Ideologies play a crucial role in the way we understand and shape the political world But no one has yet satisfactorily explained the nature of ideologies themselves In this important study Michael Freeden offers a ground breaking approach to the subject Drawing on the political experience of Britain France Germany and the USA over the past two centuries the author provides an in depth examination of the key political ideologies liberalism conservatism socialism feminism and green political thought He goes on to outline a powerful and sophisticated new theory of ideologies and argues that by paying special attention to the complexity conceptual inter relationship and historical and contemporary context of ideologies we can both better understand them and reinvigorate the study of political theory From reviews of the hardback What is on offer here is both a highly original and profoundly stimulating analysis of ideological thinking Freeden's book will undoubtedly shape and redefine the field of ideological studies as it presently stands initiating fruitful lines of research for many years to come There is much to admire in this book *History of European Ideas* The approach is immensely illuminating The outstanding merit of Freeden's work is that he has shown what political philosophy presently lacks and has done so by demonstrating that ideologies should not be dismissed as merely the poor cousins of philosophies Both political theory and political philosophy have a great deal to learn from this book *Radical Philosophy*

Political Ideology Today Ian Adams, 2001 Examines the tenets of liberalism socialism conservatism Marxism anarchism and fascism

The Routledge Handbook of Ideology Analysis Juliette Faure, Mathew Humphrey, David Laycock, 2026-03-31 This handbook offers a key interdisciplinary reference to advance ideology analysis Expert contributors from the social sciences and humanities focus on the sources and construction of ideology and related processes of ideological transmission across time and space in political and social realms Authors examine diverse forms of ideological activity focusing on their interplay with institutions organisations and cultural practices at macro meso and micro levels Chapters analyse vectors of ideological creation and transmission such as political parties social movements think tanks organised groups and traditional and social media as well as historical writing

literature and the visual arts This volume demonstrates how a variety of complementary methods can aid our understanding of ideological creation transmission and reception across macro meso and micro fields The Routledge Handbook of Ideology Analysis is an authoritative reference for students and scholars in political and social theory political science sociology and anthropology cultural studies literature communications and history The Routledge Handbook of Ideology Analysis is part of the mini series Routledge Handbooks on Political Ideologies Practices and Interpretations edited by Michael Freedman

Dimensions of Black Conservatism in the United States G. Tate, L. Randolph, 2002-06-14 Dimensions of Black Conservatism in the US is a collection of twelve essays by leading black intellectuals and scholars on varied dimensions of black conservative thought and activism The book explores the political role and functions of black neoconservatives The majority of essays cover the contemporary period The authors have provided a historical context for the reader with several articles examining the origins and development of black conservatism The Ideology of English Jeffra Flaitz, 1988

CONTRIBUTIONS TO THE SOCIOLOGY OF LANGUAGE brings to students researchers and practitioners in all of the social and language related sciences carefully selected book length publications dealing with sociolinguistic theory methods findings and applications It approaches the study of language in society in its broadest sense as a truly international and interdisciplinary field in which various approaches theoretical and empirical supplement and complement each other The series invites the attention of linguists language teachers of all interests sociologists political scientists anthropologists historians etc to the development of the sociology of language **China: From Poverty to World Power** Paolo

Urio, 2024-10-19 The second edition of this book updated to February 24 2024 presents a comprehensive evaluation of the strategy implemented by China to manage its modernization process The author evaluates to what extent the economy has been developed whether the imbalances due to the priority given to economic development have been corrected and whether the improvements of science and technology have allowed China to develop world class high tech sectors and a modern defence Clearly the end of the XX Century saw the fulfilment of Zhou En Lai four modernizations i e the acquisition of power resources that fulfilled Mao's proud 1949 statement we stood up thereby projecting China into the international arena as a re-emerging world power The author insists on the fundamental difference between American and Chinese ideologies as the main drivers of their foreign policy i e the extreme rigidity of the former compared to the remarkable flexibility and adaptability of the latter He further explains the consequences of the increasingly aggressive American foreign policy i e the US pretence to act as the leader of the existential struggle between democracy and dictatorship This posture reached its apex during the Ukrainian and the Middle East crises that unveiled the irreversible decline of the West and have become two formidable accelerators of the transition from the unipolar world America made to the multipolar world promoted by China Russia and the BRICS China Reclaims World Power Status Paolo Urio, 2018-04-09 Using both Chinese and Western theoretical approaches this book analyses the strategies implemented by China for reclaiming power in the international

domain Examining domestic measures taken by China to assure its economic and social development it also considers the strengths and weaknesses of its major international opponent the US and analyses their competing approaches to developing power resources and leadership dominance It studies the foreign policies of both China and the US first by going back to the historical origins of their ideological foundations and secondly by analysing their power building from the nineteenth century to the Trump and Xi Jinping presidencies Finally this book focuses on the One Belt One Road Initiative as China s response to putting an end to the world America made and debates the question of whether China will emerge as a new capitalist country embedded in the liberal capitalist world system or as an authoritarian state with a socialist market economy able to change the rules of the international order Providing a comparison of the two major world powers and a comprehensive overview of their relationship this book will be of great interest to students and scholars of Chinese politics and international relations as well as Chinese Studies more generally
