Tim Folger,2008 Jerome Groopman selects twenty four works of American science and nature writing as the best of the genre
from the year 2007 including pieces by John Colapinto Oliver Sacks Jeffrey Toobin and others **The New Encyclopedia of
Southern Culture** M. Thomas Inge,Charles Reagan Wilson,2014-02-01 Offering a comprehensive view of the South s literary
landscape past and present this volume of The New Encyclopedia of Southern Culture celebrates the region s ever
flourishing literary culture and recognizes the ongoing evolution of the southern literary canon As new writers draw upon
and reshape previous traditions southern literature has broadened and deepened its connections not just to the American
literary mainstream but also to world literatures a development thoughtfully explored in the essays here Greatly expanding
the content of the literature section in the original Encyclopedia this volume includes 31 thematic essays addressing major
genres of literature theoretical categories such as regionalism the southern gothic and agrarianism and themes in southern
writing such as food religion and sexuality Most striking is the fivefold increase in the number of biographical entries which
introduce southern novelists playwrights poets and critics Special attention is given to contemporary writers and other
individuals who have not been widely covered in previous scholarship **Communicating Popular Science S.**
Perrault,2013-07-12 Technoscientific developments often have far reaching consequences both negative and positive for the
public Yet because science has the authority to decide which judgments about scientific issues are sound public concerns are
often dismissed because they are not part of the technoscientific paradigm they question This book addresses the role of
science popularization in that paradox it explains how science writing works and argues that it can do better at promoting
public discussions about science related issues To support these arguments it situates science popularization in its historical
and cultural context provides a conceptual framework for analyzing popular science texts and examines the rhetorical effects
of common strategies used in popular science writing Twenty six years after Dorothy Nelkin s groundbreaking book Selling
Science How the Press Covers Science and Technology popular science writing is still not meeting its potential as a public
interest genre Communicating Popular Science explores how it can move closer to doing so **Literature and the
Environment** George Hart,Scott Slovic,2004-07-30 The phrase literature and environment only achieved popularity in recent
decades yet writers dating back to the explorers of the 1500s and later such 19th century Romantics as Thoreau have long
been addressing environmental issues through literary expression This volume introduces students and educators to the field
by tracing the evolution of environmental writing in the United States Chapters written by distinguished scholars offer new
perspectives on important environmental issues guiding readers through 11 carefully selected literary works Each chapter

provides brief biographical information on the author discussions of the work s structural thematic and stylistic components and insights into the historical context that relates the work to relevant environmental issues Each chapter concludes with information on works cited The analyzed works cover a wide spectrum of literature and span nearly 100 years Included are early writings such as Mary Austin s 1903 *The Land of Little Rain* and famous groundbreaking works such as Rachel Carson s *Silent Spring* 1962 and Gary Snyder s *Turtle Island* 1974 Also included are frequently assigned works of special interest to students such as *The Monkey Wrench Gang* 1975 *The Earthsea Trilogy* 1977 and *Ceremony* 1977 A list of selected further suggested readings completes the volume Students of literature as well as educators looking for new ways to present social issues will find many ideas and much inspiration in this volume
