American Dream Kathryn's Quest Three:

American Dream, American Nightmare Kathryn Hume, 2022-08-15 In this celebration of contemporary American fiction Kathryn Hume explores how estrangement from America has shaped the fiction of a literary generation which she calls the Generation of the Lost Dream In breaking down the divisions among standard categories of race religion ethnicity and gender Hume identifies shared core concerns values and techniques among seemingly disparate and unconnected writers including T Coraghessan Boyle Ralph Ellison Russell Banks Gloria Naylor Tim O'Brien Maxine Hong Kingston Walker Percy N Scott Momaday John Updike Toni Morrison William Kennedy Julia Alvarez Thomas Pynchon Leslie Marmon Silko and Don DeLillo Hume explores fictional treatments of the slippage in the immigrant experience between America's promise and its reality She exposes the political link between contemporary stories of lost innocence and liberalism's inadequacies She also invites us to look at the literary challenge to scientific materialism in various searches for a spiritual dimension in life The expansive future promised by the American Dream has been replaced Hume finds by a sense of tarnished morality and a melancholy loss of faith in America's exceptionalism American Dream American Nightmare examines the differing critiques of America embedded in nearly a hundred novels and points to the source for recovery that appeals to many of the authors

Rocheft, 2024-12-01 This book approaches contemporary fiction as a medium for policy advocacy one whose narrative devices both link it to and distinguish it from other forms of public discourse Using the framework of political agenda setting David A Rocheft analyzes the rhetorical function of problem definition played by literary works when they document and characterize social issues while sounding the call for systemic reform Focusing on a group of noteworthy realist novels by American authors over the past twenty years this study maintains that fictional narrative is a potentially influential instrument of empathic policy argument The book closes by examining the agenda setting dynamics through which a social problem novel can contribute to the process of policy change *Forthcoming Books* Rose Arny, 2003 **The Publishers'**

Trade List Annual, 1988 **Models for the Multitudes** K. L. Kelley, 1987-02-17 This provocative study was developed to uncover the thought processes of the best selling authors from 1850 to 1920 concerning the subject of success Based on the conviction that the reading of novels strongly influences social values and behavioral expectations a number of key discoveries are presented regarding character behavior and gender the variations between the work of female and male writers the similarity of social values employed by widely diverse novelists and the emergence of three distinct time periods related to alterations in gender expectations The book points out the basic assumptions held by popular novelists notes the parameters of human conduct approved by them for their characters and identifies the ideas seen by them as necessary to their work Kelley contends that the coherent pattern of social values uncovered through the use of content analysis suggests that the first mass audience that is the purchasers of best sellers demanded a consensus of ideas in any works that were to

sell well and that these can be seen as models for the multitudes *Punishing the Poor* Loïc Wacquant, 2009-05-22 A sociologist explains how over the past two decades neoliberal societies have sought to control the poor through a combination of penal sanction and welfare supervision

Activating China Setsuko Matsuzawa, 2019-01-04 This book examines the effects of the transnational social and environmental advocacy of foreign NGOs in China Based on three case studies including China s first participatory development project its first successful case of transnational anti dam activism and its first national park project the book challenges our typical understanding that global forces shape local outcomes Drawing on ethnographic fieldwork in China and archival work in the United States Matsuzawa sheds light on the entrepreneurial behaviors of Chinese activists researchers and government officials She shows that global projects are often substantially transformed by local actors despite the original intentions of their foreign collaborators and even China s central government Thus it is argued that foreign NGOs are not as hegemonic or culturally imperialistic as is commonly viewed Matsuzawa reveals that their goals may change profoundly as a result of their engagements with local actors on the ground She offers a new theory of transnational advocacy together with an account of the Chinese party state s rising concerns over the influence of foreign NGOs *Activating China* will be of interest to sociologists and political scientists working in the fields of social movement studies and activism in China
