Castelli - Sonnabend (New York), 1974 Labyrinths-voice-blind Time Robert Morris, 1974 **Fulbright Labyrinths**
Virginia Hall-Milhouse, 2011-11-28 In this provocative work Virginia Milhouse demonstrates how autoethnography combines creative and analytical practices to help bring to consciousness some complex social and political agendas hidden in narratorial writings It demonstrates how an arts based qualitative research method narrative inquiry can be fused with a scientific based quantitative method DMIS IDI and compliment support and or correct each other It also demonstrates how writing as a method of inquiry can be a viable way for researchers to learn about themselves and their research as well as features standards for evaluating creatively and analytically constructed text Further the author s examination of the aesthetics of inner readiness and in betweenness will be very helpful to people doing this kind of self reflexive fieldwork The reader will also appreciate this author s recognition of the importance of combining qualitative and quantitative methodologies something not many writers can do with great success Also this book will be a real contribution to sojourners and others traveling or living abroad The work is very smart and is beautifully and clearly written The labyrinth quote at the beginning of her work is very fitting and certainly promises to illustrate those words **Robert Kroetsch and His Works**

Susan Richmond, 2015-03-13 In four decades of abstract art practice Lynda Benglis has not merely challenged the status quo She has tied it in knots melted it down and poured it across the floor cast it in glass clay and bronze Daring and sometimes outrageous her intense and provocative practice has produced some of the most iconic pieces of art from the late twentieth century Richmond gives serious critical attention to work often dismissed as trivial and rootless recovering the themes that link the different phases of the artist s quest to capture the frozen gesture Whether challenging popular tastes and definitions of art with her 1970s abstract knotwork or mocking puritanical aesthetics of gender with her colourful latex pourings and their allusions to corporeal topographies Benglis never failed to provoke Her sculptures commemorate and celebrate the processes of creation themselves combining architectonic abstraction and feminized sensuality in a haunting visceral theme of the strangeness of the body that runs through all her experiments in glass video metals ceramics gold leaf paper and plastics Lynda Benglis Beyond Process examines in depth the work and critical neglect of an artist who perhaps more than any of her contemporaries changed the face of American art in the 1960s and 1970s and continues to fetishise provoke and demand your attention **Canadian Writers and Their Works** Robert Lecker, Jack David, Ellen Quigley, Donald Wilfred McLeod, 1983 *Future Indicative* John Moss, John George Moss, 1987 The format of this book is

arbitrary and exact the way paint is in a landscape by Alex Colville It follows the program of the symposium that took place at the University of Ottawa from April 25 to 27 1986 As Bakhtin leaps from the sidelines to centre stage as Derrida clammers out of orchestra pit into the prompter s box and Lanca swings from the flies as Foucault L vi Strauss Saussure Barthes and a throng of others rhubarb their way through the text one recognizes just how connected all the disparate elements of this critical extravaganza really are Published in English *Multiple Voices* Centre d'Etudes Canadiennes (Bruxelles),1990
