Cherokee Editor, the Writings of Elias Boudinot Elias Boudinot, Theda Perdue, 1983 This volume collects most of the writings published by the accomplished Cherokee leader Elias Boudinot 1804-1839 Founding editor of the Cherokee Phoenix Boudinot is the most ambiguous and puzzling figure in Cherokee history Although he first struggled against the removal of his people from their native Southeast Boudinot later reversed his position and signed the Treaty of New Echota an action that cost him his life Together with Theda Perdue's biographical introduction and in depth annotations these letters articles pamphlets and editorials document the stages of Boudinot's religious philosophical and political growth from his early optimism that the Cherokees could completely assimilate into white society to his call for a separate nation of civilized Cherokees

Cherokee Editor Barbara Francine Luebke, 2014-03-24 The story of American journalism includes many men and women whose history for the most part overlooks One such man is the Cherokee who guided the development of the first Indian newspaper and edited it during its early years Educated by missionaries in the Cherokee Nation and New England Elias Boudinot was no ordinary Cherokee and no ordinary editor His life story is intertwined with his people's as they progressed into the 19th century Part biography and part history Cherokee Editor draws extensively on the pages of the Cherokee Phoenix to tell its story in Boudinot's own words Aimed at young adult readers in particular it is a story with 21st century themes including racism political feuds government heavy handedness a controversial Supreme Court ruling and assassinations

Divided Sovereignties Rochelle Raineri Zuck, 2016-08 In eighteenth and nineteenth century debates about the constructions of American nationhood and national citizenship the frequently invoked concept of divided sovereignty signified the division of power between state and federal authorities and or the possibility of one nation residing within the geopolitical boundaries of another Political and social realities of the nineteenth century such as immigration slavery westward expansion Indigenous treaties and financial panics amplified anxieties about threats to national state sovereignty Rochelle Raineri Zuck argues that in the decades between the ratification of the Constitution and the publication of Sutton Griggs's novel Imperium in Imperio in 1899 four populations were most often referred to as racial and ethnic nations within the nation the Cherokees African Americans Irish Americans and Chinese immigrants Writers and orators from these groups engaged the concept of divided sovereignty to assert alternative visions of sovereignty and collective allegiance not just ethnic or racial identity to gain political traction and to complicate existing formations of nationhood and citizenship Their stories intersected with issues that dominated nineteenth century public argument and contributed to the Civil War In five chapters focused on these groups Zuck reveals how constructions of sovereignty shed light on a host of concerns including regional and sectional tensions territorial
