Blind Mans Fool:

Queering W. B. Yeats and Gabriele D'Annunzio Zsuzsanna Balázs, 2023-11-22 *Queering W B Yeats and Gabriele D Annunzio* Modernist Playwrights challenges the general resistance in scholarship and queer studies to approach Yeats and D Annunzio through a queer lens because of their controversial affiliations with fascism and elitism their heterosexuality and their venerated canonical status This book provides the first fully theorised queer and comparative reading of Yeats s and D Annunzio s drama It offers the novel contention that due to their increasing involvement in queer and feminist subcultures their plays feature feelings that are associated with queer historiography and generate ideas that began to be theorised by queer studies more than half a century after the composition of the plays Moreover it uncovers an alert subversive and often coded social commentary in eight key dramatic texts by each playwright and at the same time highlights the thus far neglected commonalities between the plays and the queer historical as well as cultural contexts of these two prominent modernists

Irish Drama, 1900-1980 Cólín Owens, Joan Newlon Radner, 1990 The purpose of this anthology is to make available in one volume major contributions of Irish dramatists to the literature of the modern stage from the founding of the Abbey Theater to the present

Toward an Aesthetics of Blindness David Feeney, 2007 Blindness has always fascinated those who can see Although modern imaginative portrayals of the sightless experience are increasingly positive the affirmative elements of these renderings are inevitably tempered and problematized by the visual predilections of the artists undertaking them This book explores a variety of the discontinuities between depictions of the sightless experience of beauty by sighted artists and the lived aesthetic experiences of blind people It does so by pressing a radical interdisciplinary reinterpretation of celebrated dramatic portrayals of blindness into service as a tool with which to probe the boundaries of the capacities of the sighted imagination while exploring the sensory detriment of our visually fixated notions of beauty Works by J M Synge W B Yeats and Brian Friel are explored as a means of crafting a workable and innovative medium of theoretical and experiential exchange between the disciplines of literature aesthetics and disability studies In addition to appraising previously unexamined aspects of the work of three of Ireland s most celebrated modern dramatists this book considers the consequences for blind people of the exclusionary and prohibitive elements of traditional aesthetic theory and art education The insights yielded will be of value to those with an interest in modern literature differential aesthetics visual culture perception and the experience of blindness
