Guilt, Suffering, and Memory Gilad Margalit,2010 Unresolved tensions in German postwar memorials *Zion's Watch Tower and Herald of Christ's Presence* ,1968 'A Great Effusion of Blood'? Mark D.

Meyerson,Daniel Thiery,Oren Falk,2015-03-27 A great effusion of blood was a phrase used frequently throughout medieval Europe as shorthand to describe the effects of immoderate interpersonal violence Yet the ambiguity of this phrase poses numerous problems for modern readers and scholars in interpreting violence in medieval society and culture and its effect on medieval people Understanding medieval violence is made even more complex by the multiplicity of views that need to be

reconciled those of modern scholars regarding the psychology and comportment of medieval people those of the medieval persons themselves as perpetrators or victims of violence those of medieval writers describing the acts and those of medieval readers the audience for these accounts Using historical records artistic representation and theoretical articulation the contributors to this volume attempt to bring together these views and fashion a comprehensive understanding of medieval conceptions of violence Exploring the issue from both historical and literary perspectives the contributors examine violence in a broad variety of genres places and times such as the Late Antique lives of the martyrs Islamic historiography Anglo Saxon poetry and Norse sagas canon law and chronicles English and Scottish ballads the criminal records of fifteenth century Spain and more Taken together the essays offer fresh ways of analysing medieval violence and its representations and bring us closer to an understanding of how it was experienced by the people who lived it

Religious Instruction for Soldiers in the First English Civil War, 1642-1646 Antti Taipale, 2025-07-14 This monograph examines religion in the first English Civil War as a tool for war both in instructing soldiers and portraying the enemy It argues that thus far the remarkable differences between the teaching of Parliamentarian and Royalist ministers to their respective armies have gone largely unnoticed Relying on the methodologies of intellectual history combined with a comparative approach it offers a new interpretation of soldiers religious radicalism and highlights differences between the armies spiritual edification Hence it contributes significantly to the history of the Wars of the Three Kingdoms and to the study of political radicalisation leading up to the regicide of Charles I Moreover it offers a detailed study of the ways in which religion was used as a tool for war in the early modern period The role of religion has often been at the centre of historiography of the Wars of the Three Kingdoms 1639 1653 This prominence has culminated in the stereotypical character of a godly Puritan soldier especially in relation to the New Model Army However while there have been debates about the role and importance of religion for the conduct and success of the armies the theme of soldiers religious instruction as a tool of advice and indoctrination has received less

attention The main aim of this book is thus to rectify this lack in the historiographical mainstream and to set out a new significant interpretation of the religious character of the Civil War
