

An aerial photograph of a desert landscape. The foreground is dominated by rolling sand dunes with distinct wind-swept ripples. In the middle ground, a large, dark, angular rock formation, possibly a mesa or butte, stands out against the lighter sand. The background shows more dunes extending to the horizon under a vast, overcast sky with soft, diffused light. The overall color palette is muted, consisting of various shades of blue, grey, and beige.

Destination Jake Davis,1993 **Destination Equality Levels** Corbin Shepherd,AI,2025-04-07 *Destination Equality Levels* explores the crucial intersection of travel and social justice offering a fresh perspective on ethical tourism by ranking global destinations based on their commitment to equality The book highlights that a welcoming facade can often mask underlying discrimination against marginalized groups For example destinations with vibrant LGBTQ scenes may still lack comprehensive anti discrimination laws impacting the overall travel experience This book empowers travelers to make informed choices that support inclusive destinations and encourages critical reflection on the social responsibility inherent in tourism The book s unique approach involves quantifying equality through measurable standards like marriage equality healthcare access and anti discrimination enforcement By analyzing legal frameworks and societal norms *Destination Equality Levels* moves beyond subjective impressions to provide a data driven assessment of each location It acknowledges the influence of historical context such as colonial legacies on present day equality levels The book progresses methodically defining key concepts before introducing its ranking methodology and then delves into thematic sections focusing on marriage rights healthcare and anti discrimination Ultimately the book argues that travelers can promote social progress by favoring destinations with strong equality protections It blends politics and travel to offer a holistic understanding of equality and social justice within the tourism industry This framework serves as a practical guide for travelers travel agencies and policymakers alike offering actionable steps to support inclusive destinations and advocate for change *Life-Destroying Diagrams* Eugenie Brinkema,2022-01-14 *In Life Destroying Diagrams* Eugenie Brinkema brings the insights of her radical formalism to bear on supremely risky terrain the ethical extremes of horror and love Through close readings of works of film literature and philosophy she explores how diagrams grids charts lists abecedaria toroids tempos patterns colors negative space lengths increments and thresholds attest to formal logics of torture and cruelty violence and finitude friendship and eros debt and care Beginning with a wholesale rethinking of the affect of horror orienting it away from entrenched models of feeling toward impersonal schemes and structures Brinkema moves outward to consider the relation between objects and affects humiliation and metaphysics genre and the general bodily destruction and aesthetic generation geometry and scenography hatred and value love and measurement and ultimately the tensions hazards and speculative promise of formalism itself Replete with etymological meditations performative typography and lyrical digressions *Life Destroying Diagrams* is at once a model of reading without guarantee and a series of generative experiments in the writing of aesthetic theory *AF Manual* United States.
