**Heinrich Heine: Dreams in A Winter's Tale. A New Historicist Approach.** Susanne Kaufmann,2007-09 Seminar paper from the year 2000 in the subject German Studies Modern German Literature grade A University of Connecticut German language English abstract Texts do not come out of the blue This could be the motto of those literary theorists that apply the method of the new historicism a procedure for interpreting texts that has become popular in the 1980s New historicism aims at revealing power relations that are reflected but hidden in texts All texts are considered products of specific historical conditions and therefore imbued with cultural social and political elements Such a complex dialogue between text and history can be clearly seen in Deutschland A Winter's Tale by Heinrich Heine His motto when he was writing the travel story in 1844 could have been dreams do not come out of the blue either One may wonder why the four dreams which make up a comparatively small part of the whole text are of such importance From the point of view of a new historicist however all texts sorts should be regarded equal and inter dependent Accepting the historicity of all texts new historicists work with sources from a variety of disciplines and discourses for the analysis of a piece of literature Furthermore this approach even justifies an application of discourses that have come into existence before or after the work in question as long as they can contribute to its interpretation and evaluation For the interpretation of the dreams in Heine's Deutschland A Winter's Tale I will make use of this methodological advantage and apply various sources that range from ancient times up to the 20th century

**Arc of Utopia** Lesley Chamberlain, 2017-11-15 Although Lenin and his fellow revolutionaries never called themselves Utopians believing strictly in a science of revolution they considered Utopians to be merely dreamers they were enormously inspired by the grand humanitarian aims of the French Revolution of 1789 Taking up this French revolutionary agenda and reinforcing it with German philosophy Russians formed a beautiful vision in which an imaginary theology blended with a premier role for art Arc of Utopia offers a fresh look at these German philosophical origins of the Russian Revolution In the book Lesley Chamberlain explains how influential German philosophers like Kant Schiller and Hegel were dazzled by contemporary events in Paris and

how this led a century later to an explosion of art and philosophy in the Russian streets with a long repressed people reinventing liberty equality and fraternity in their own cultural image Chamberlain examines how some of the greatest Russian names of the nineteenth century from Alexander Herzen to Mikhail Bakunin Ivan Turgenev to Fyodor Dostoevsky defined their visions for Russia in relationship to their views on German enthusiasm for revolutionary France With the centenary of the Russian Revolution approaching Arc of Utopia is an important and timely revisioning of this tumultuous moment in history
