Power and Paranoia in Syria-Iraq Relations Amjed Rasheed, 2023-03-02 This book examines the perplexing twists and turns in Syria Iraq relations which since the establishment of modern Syria and Iraq after World War I have zigzagged between cooperation and hostility countless times It questions why both countries switched regional and international alliances but never formed one of their own and assesses the role played by structural forces such as geopolitics ideology and regime survival It also argues that a key factor was the individual personalities the agency role of Hafez Assad and Saddam Hussain both of whom had a monopoly of power similar ambitions and leadership styles and great mistrust of each other with the result that they clashed It goes on to show how both were caught between commitment to pan Arabism and the imperative for regime survival and how this led them both to weaken pan Arabism instead and construct sectarian polarisation to ensure regime survival The book concludes that their ruthless fight left a heavy legacy where in both countries regime survival overshadowed state consolidation and nation building with both countries divided into smaller communities of faiths and ethnicities at war with each other
