*Desperate Deception* Linda Hudson-Smith, *Reassessing the Presidency* David Gordon, Thomas J. DiLorenzo, Thomas E. Woods, Jr, Yuri N. Maltsev, Ralph Raico, Paul Gottfried, Hans-Hermann Hoppe, 2013-09-19 American Despots Amazing low sale price in defense of authentic freedom as versus the presidency that betrayed it Everyone seems to agree that brutal dictators and despotic rulers deserve scorn and worse But why have historians been so willing to overlook the despotic actions of the United States own presidents You can scour libraries from one end to the other and encounter precious few criticisms of America s worst despots The founders imagined that the president would be a collegial leader with precious little power who constantly faced the threat of impeachment Today however the president orders thousands of young men and women to danger and death in foreign lands rubber stamps regulations that throw enterprises into upheaval controls the composition of the powerful Federal Reserve and manages the priorities millions of swarms of bureaucrats that vex the citizenry in every way It is not too much of a stretch to say that the president embodies the Leviathan state as we know it Or more precisely it is not an individual president so much as the very institution of the presidency that has been the major impediment of liberty The presidency as the founders imagined it has been displaced by democratically ratified serial despotism And for that reason it must be stopped Every American president seems to strive to make the historians A list by doing big and dramatic things wars occupations massive programs tyrannies large and small in hopes of being considered among the greats such as Lincoln Wilson and FDR They always imagine themselves as honored by future generations the worse their crimes the more the accolades Well the free ride ends with *Reassessing the Presidency The Rise of the Executive State and the Decline of Freedom* edited by John Denson This remarkable volume 825 pages including index and bibliography is the first full scale revision of the official history of the U S executive state It traces the progression of power exercised by American presidents from the early American Republic up to the eventual reality of the power hungry Caesars which later appear as president in American history Contributors examine the usual judgments of the historical profession to show the ugly side of supposed presidential greatness The mission inherent in this undertaking is to determine how the presidency degenerated into the office of American Caesar Did the character of the man who held the office corrupt it or did the power of the office as it evolved corrupt the man Or was it a combination of the two Was there too much latent power in the original creation of the

office as the Anti Federalists claimed Or was the power externally created and added to the position by corrupt or misguided men There s never been a better guide to everything awful about American presidents No you won t get the civics text approach of see no evil Essay after essay details deprecations that will shock you and wonder how American liberty could have ever survived in light of the rule of these people Contributors include George Bittlingmayer John V Denson Marshall L DeRosa Thomas J DiLorenzo Lowell Gallaway Richard M Gamble David Gordon Paul Gottfried Randall G Holcombe Hans Hermann Hoppe Jeffrey Rogers Hummel Michael Levin Yuri N Maltsev William Marina Ralph Raico Joseph Salerno Barry Simpson Joseph Stromberg H Arthur Scott Trask Richard Vedder and Clyde Wilson Desperate Deception Maria Greene,1988-09-01 **One Nation Under Blackmail - Vol. 1** Whitney Alyse Webb,2022-10-20 One Nation Under Blackmail is a damning indictment of the consequences resulting from the nearly century old relationship between both US and Israeli intelligence and the organized criminal network known as the National Crime Syndicate This book specifically explores how that nexus between intelligence and organized crime directly developed the sexual blackmail tactics and networks that would later enable the sexual blackmail operation and other crimes of deceased pedophile and sex trafficker Jeffrey Epstein Other books on Jeffrey Epstein focus on the depraved nature of his crimes his wealth and his most famous politically connected friends and acquaintances This book in contrast reveals the extent to which Epstein s activities were state sponsored through an exploration of his intelligence connections **The Improbable Wendell Willkie** David Levering Lewis,2018-09-18 From a two time Pulitzer winning historian comes an insightful compelling portrait New York Times Book Review of Wendell Willkie the businessman turned presidential candidate Hailed as the definitive biography of Wendell Willkie Irwin F Gellman The Improbable Wendell Willkie offers an engrossing and enlightening appraisal Ira Katznelson of a prominent businessman and Wall Street attorney presidential candidate who could have saved America s sclerotic political system Although Willkie lost to FDR in 1940 acclaimed historian David Levering Lewis demonstrates that the story of this Hoosier born corporate chairman s life is a powerful reminder of practical bipartisanship visionary internationalism and committed civil liberties and civil rights Katrina vanden Heuvel Popular for his downhome mid western charm and unaffected candor Willkie possessed a supple intellect and a concealed disdain for political opportunism that had he not died prematurely would have revolutionized American politics with its advocacy of bipartisanship and social responsibility Meticulously researched and brilliantly written Douglas Brinkley The Improbable Wendell Willkie brings the now largely unknown Willkie to a new generation The New Yorker reclaiming the legacy of an American icon *Century of War*, A John V. Denson,2006 The horrors of the twentieth century could hardly have been predicted in the nineteenth century which saw the eighteenth century end with the American Revolution bringing about the creation of the first classical liberal government in history The twentieth century was the bloodiest in all history More than 170 million people were killed by government with 10 million having been killed in World War I and 50 million killed in World War II Of the 50 million killed in
