The John W. Campbell, Jr. Letters Perry Chapdelaine, Tony Chapdelaine, George Hay, 2015-09-15 For many years John W Campbell Jr was the editor who metaphorically provided the door through which most would be science fiction writers had to pass to sell their stories As editor of Astounding Science Fiction now Analog Science Fiction and Fact and also as editor of Unknown Campbell had to fill their pages with entertaining stories During this early era he filled those pages by teaching about story ideas to anyone who would listen Campbell the editor threw out science fiction ideas like a farmer casting seed corn to his plowed fields and he nurtured the ideas almost like real flesh and blood children We can't say that Star Trek Star Wars and other great science fiction movies would not have been created except for him but we can say that John W Campbell Jr was the basic inspiration behind them Why was that Because Campbell taught young high school would be writers experienced writers of other genre or even great writers of science fiction that the meaning of science fiction was an interesting story told within the framework of real or possible science No fuzzy thinking was allowed we paraphrase for him Campbell the editor of Unknown also began a new type of sword and sorcery magazine that brought magic and genies into modern society complete with automobiles and skyscrapers John W Campbell Jr as a writer under both his birth name and the pen name Don A Stuart was successful under two styles Writing came easy to him More than appealing to writers John had a wide and varied audience among those were hard scientists engineers mathematicians and teachers A crater on Mars is named after him the Campbell Crater In *The John W Campbell Letters Vol I* you'll find a selected series of his letters dated from the 1930s to the 1970s When you read these letters you will understand how he nearly single handedly formed the modern world of science fiction This is the second edition of Volume I the first still available in paperback form but its pages are becoming discolored from age 254 053 Words [The John W. Pseudoscience and Science Fiction Andrew May, 2016-09-13 Aliens flying saucers ESP the Bermuda Triangle antigravity are we talking about science fiction or pseudoscience Sometimes it is difficult to tell the difference Both pseudoscience and science fiction SF are creative endeavours that have little in common with academic science beyond the superficial trappings of jargon and subject matter The most obvious difference between the two is that pseudoscience is presented as fact not fiction Yet like SF and unlike real science pseudoscience is driven by a desire to please an audience in this case people who want to believe This has led to significant cross fertilization between the two disciplines SF authors often draw on real pseudoscientific theories to add verisimilitude to their stories while on other occasions pseudoscience takes its cue from SF the symbiotic relationship between ufology and Hollywood being a prime example of this This engagingly written well researched and richly illustrated text explores a wide range of intriguing similarities and differences between pseudoscience and the fictional science found in SF Andrew May has a degree in Natural Sciences from Cambridge University and a PhD in astrophysics from Manchester University After many years in academia and the private sector he now works as a freelance writer and scientific consultant He has written pocket biographies of Newton and Einstein as well as contributing to a number of popular science books He has a lifelong interest in science fiction and has had several articles published in *Fortean Times* magazine
