Complete Of Catholic Colleges:

The Complete Book of Colleges Edward Custard, Dan Saraceno, 1998 Many of this country's Catholic colleges can count themselves among the world's most prestigious learning institutions. Regardless of the educational direction you choose as you browse through this guide, you will find a rich array of schools offering the widest range of intellectual pursuits. You'll encounter colleges with academic specialties in business, the arts, teacher education, engineering, biological sciences, and nearly every other possibility imaginable. The Complete Book of Catholic Colleges profiles the academic, social, and spiritual conditions at 193 Catholic schools and includes information on Newman centers and other Catholic groups on campuses. This essential guide contains information on Admissions criteria for each school, plus application deadlines, Financial aid programs including special scholarships and grants for Catholic students, Libraries, laboratories, athletic and other facilities. The Jesuits, Dominicans, Benedictines, and other religious orders who run the colleges you're considering. Applying to colleges online, the great tradition of sports in Catholic universities. This comprehensive guide also provides you with all of the important practical information you need to apply to colleges: telephone and fax numbers, campus and e-mail addresses, tuition and other expenses, and which financial aid forms need to be submitted. The Complete Book of Catholic Colleges was written by admissions expert Edward Custard, Best 311 Colleges, an educational consultant with over twenty years' experience in college admissions and counseling, and Dan Saraceno, a former minor seminarian and director of admissions at several Catholic colleges.

From Backwater to Mainstream Andrew M. Greeley, 1969 Catholic Colleges of the United States of America at the Middle of the Twentieth Century, 1952 Catholic Women's Colleges in America Tracy Schier, Cynthia Russett, 2002-04-05 Provides a comprehensive history of more than 150 colleges in the United States which were founded by nuns and how they met the challenges of broader educational change. The authors explore how and for whom the colleges were founded and the role of Catholic nuns in their founding and development. They examine the roots of the founders' spirituality and education; they discuss curricula, administration, and student life. And they describe the changes prompted by both the Church and society beginning in the 1960s when decreasing enrollments led some colleges to opt for coeducation while others restructured their curricula, partnered with other Catholic colleges, developed specialized programs, or sought to broaden their base of funding.

The Complete Book of Catholic Colleges Edward Custard, Dan Saraceno, 1998 **The Academic Revolution** David Riesman, 2001-11-30 The Academic Revolution describes the rise to power of professional scholars and scientists first in America's leading universities and now in the larger society as well. Without attempting a full-scale history of American higher education, it outlines a theory about its development and present status. It is illustrated with firsthand observations of a wide variety of colleges and universities: the country over, colleges for the rich and colleges for the upwardly mobile, colleges for vocationally oriented men and colleges for intellectually and socially oriented women, colleges for Catholics and colleges for Protestants, colleges for blacks and colleges for rebellious whites. The authors also look at some

of the revolution's consequences. They see it as intensifying conflict between young and old and provoking young people raised in permissive middle class homes to attacks on the legitimacy of adult authority. In the process the revolution subtly transformed the kinds of work to which talented young people aspire, contributing to the decline of entrepreneurship and the rise of professionalism. They conclude that mass higher education for all its advantages has had no measurable effect on the rate of social mobility or the degree of equality in American society. Jencks and Riesman are not nostalgic; their description of the nineteenth century liberal arts colleges is corrosively critical. They maintain that American students know more than ever before that their teachers are more competent and stimulating than in earlier times and that the American system of higher education has brought the American people to an unprecedented level of academic competence. But while they regard the academic revolution as having been an historically necessary and progressive step, they argue that like all revolutions it can devour its children. For Jencks and Riesman, academic professionalism is an advance over amateur gentility, but they warn of its dangers and limitations: the elitism and arrogance implicit in meritocracy, the myopia that derives from a strictly academic view of human experience and understanding, the complacency that comes from making technical competence an end rather than a means.

Christopher Jencks is Malcolm Wiener Professor of Social Policy at the Kennedy School of Government at Harvard University. He is the author of *Rethinking Social Policy: Race, Poverty and the Underclass*, *The Homeless*, and co-editor of *The Black-White Test Score Gap*. David Riesman is Henry Ford II Professor Emeritus of Sociology at Harvard University. He is the author of *Thorstein Veblen: Abundance for What?*, *The Lonely Crowd*, and *Variety in American Education*.

Year Book of the Churches, 1927 **Our Schools and Colleges**, Frederick Shirley Dumaesq de Carteret-Bisson, 1879 The Praeger Handbook of Faith-Based Schools in the United States, K-12, Thomas C. Hunt, James C. Carper, 2012-08-06

Exploring a subject that is as important as it is divisive, this two-volume work offers the first current definitive work on the intricacies and issues relative to America's faith-based schools. *The Praeger Handbook of Faith-Based Schools in the United States, K-12* is an indispensable study at a time when American education is increasingly considered through the lenses of race, ethnicity, gender, and social class. With contributions from an impressive array of experts, the two-volume work provides a historical overview of faith-based schooling in the United States, as well as a comprehensive treatment of each current faith-based school tradition in the nation. The first volume examines three types of faith-based schools: Protestant schools, Jewish schools, and Evangelical Protestant homeschooling. The second volume focuses on Catholic, Muslim, and Orthodox schools and addresses critical issues common to faith-based schools, among them state and federal regulation and school choice, as well as ethnic, cultural, confessional, and practical factors. Perhaps most importantly, for those concerned with the questions and controversies that abound in U.S. education, the handbook grapples with outcomes of faith-based schooling and with the choices parents face as they consider educational options for their children.
