Composer To Composer:

Anthony Philip Heinrich, a Nineteenth-century Composer in America William Treat Upton, 1939 **The Composer As Listener** Irving Kolodin, 2012-04-01 *Samuel Barber* Barbara B. Heyman, 2020-01-28 Samuel Barber 1910 1981 is one of the most admired and honored American composers of the twentieth century An unabashed Romantic largely independent of worldwide trends and the avant garde he infused his works with poetic lyricism and gave tonal language and forms new vitality His rich legacy includes every genre including the famous Adagio for Strings Knoxville Summer of 1915 three concertos a plethora of songs and two operas the Pulitzer prize winning *Vanessa* and *Antony and Cleopatra* the commissioned work that opened the new Metropolitan Opera House at Lincoln Center in 1966 Generously documented by letter sketches autograph manuscripts and interviews with friends colleagues and performers with whom he worked this ASCAP Award winning book is still unquestionably the most authoritative biography on Barber covering his entire career and interweaving the events of his life with his compositional process This second edition benefits from many new discoveries including a Violin Sonata recovered from an artist's estate a diary Barber kept his seventeenth year a trove of letters and manuscripts that were recovered from a suitcase found in a dumpster documentation that dispels earlier myths about the composition of Barber's Violin Concerto and research of scholars that was stimulated by Heyman's work Barber's intimate relations are discussed when they bear on his creativity A testament to the lasting significance of Romanticism Samuel Barber stands as a model biography of an important musical figure Irving Fine Phillip Ramey, 2005 Ramey a composer and pianist discusses Fine's brief teaching career in the 1940s at his alma mater Harvard University shadowed Fine was convinced by a malign tradition of tacit anti-Semitism and his subsequent years at the newly opened Brandeis University where he flourished founding the music department and introducing a landmark performing arts festival *The Composer's Voice* Edward T. Cone, 2023-04-28 Music we are often told is a language But if music is a language then who is speaking The *Composer's Voice* tries to answer this obvious but infrequently raised question In so doing it puts forward a dramatistic theory of musical expression based on the view that every composition is a symbolic utterance involving a fundamental act of impersonation The voice we hear is not that of the composer himself but of a persona a musical projection of his consciousness that experiences and communicates the events of the composition Developing his argument by reference to numerous examples in a wide variety of styles Mr Cone moves from song and opera through program music to absolute instrumental music In particular he discusses the implications of his theory for performance According to the dramatistic view not only every singer but every instrumentalist as well becomes a kind of actor assuming a role that functions both autonomously and as a component of the total musical persona In his analysis of the problems inherent in this dual nature of the performer's job Mr Cone offers guidance that will prove of practical value to every performing musician He has much to say to the listener as well He recommends an imaginative participation in the component roles of musical work leading to a sense of identification

with the persona itself as the path to complete musical understanding And this approach is shown to be relevant to a number of specialized kinds of listening as well those applicable to analysis historical scholarship and criticism The dance too is shown to depend on similar concepts Although *The Composer's Voice* involves an investigation of how music functions as a form of communication it is not primarily concerned with determine or interpreting the content of the message A final chapter however puts forward a tentative explanation of musical meaning based on an interpretation of the art as a coalescence of symbolic utterance and symbolic gesture While not essential to the main lines of the argument it suggests interesting possibilities for further development of the dramatic theory This title is part of UC Press's *Voices Revived* program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 *Voices Revived* makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1974 [The Composer and His Art](#) Gordon Jacob,1955 **Composers** DK,2020-09-15 The only love affair I have ever had was with music Maurice Ravel A compelling celebration of more than 90 of the world's most influential composers from the medieval period to the present day *Composers* reveals the fascinating stories of their lives loves and works Biographical entries introduced with a stunning portrait of each featured composer trace the friendships loves and rivalries that inspired each musical genius Profiles offer revealing insights into what drove each individual to create the musical masterpieces symphonies concertos and operatic scores that changed the direction of classical music and are still celebrated and treasured today Lavishly illustrated with paintings or photographs of each composer alongside original musical scores and personal correspondence images of their homes and where they worked and personal effects and other important artifacts the book introduces the key influences themes and working methods of each individual setting their works within a wider historical and cultural context Charting the development of classical music and music movements across the centuries *Composers* provides a compelling glimpse into the personal lives loves and influences of the giants of the classical music canon **A Composer's World** Paul Hindemith,2022-10-17 The Book aims to be a guide through the little universe which is the working place of the man who writes music As such it talks predominantly to the layman although the expert composer may also find some stimulation in it From the center of basic theory our discussion will spread out into all the realms of experience which border the technical aspect on composing such as aesthetics sociology philosophy and so on We must be grateful that with our art we have been placed halfway between science and religion enjoying equally the advantages of exactitude in thinking and of the unlimited world of faith Paul Hindemith from the preface **Composer to Composer** Andrew Ford,1993 The author of this book is a composer and presenter of ABC Radio National's *The Music Show* and author presenter of ABC Classic FM's *Illegal Harmonies* It is the only book to include interviews with Australian and international composers [The Great Italian and French Composers](#) George Titus Ferris,1886 [Contemporary Composers](#) Daniel Gregory Mason,1918 **The Composer**

Elliott Schwartz, Barney Childs, Jim Fox, 2009-06-16. This anthology of essays, interviews, and autobiographical pieces provides an invaluable overview of the evolution of contemporary music from chromaticism, serialism, and indeterminacy to jazz, vernacular, electronic, and non-Western influences. Featuring classic essays by Stravinsky, Stockhausen, and Reich, as well as writings by lesser-known but equally innovative composers such as Jack Beeson, Richard Maxfield, and T. J. Anderson, this collection covers a broad range of styles and approaches. Here you will find Busoni's influential *Sketch of a New Esthetic of Music*, Partch's exploration of a new notation system, Babbitt's defense of advanced composition in his controversial *Who Cares If You Listen*, and Pauline Oliveros's meditations on sound. Now updated with fifteen new composers, including Michael Tippett, György Ligeti, Gunther Schuller, Ben Johnston, Sofia Gubaidulina, and William Bolcom, this important book gathers together forty-nine pieces, many out of print and some newly written for this volume, which serve as a documentary history of twentieth-century music in theory and practice. Impassioned, provocative, and eloquent, these writings are as exciting and diverse as the music they discuss.
