## **Complete Wine Encyclopedia:**

*The World Wine Encyclopedia* Tom Stevenson, 1988-01-01      *The Complete Wine Encyclopedia* Christian Callec, 2003

Wine is central to the revels and rituals of nearly every culture around the world. It is linked to the sacred, the sinful, and every aspect of life in between. *The Complete Wine Encyclopedia* tells the story of the extraordinary substance, its origins, its manufacture, and its varieties. Included are sections on wines from every region of the world, from the exotic wines of the Middle East to the classics of the French wine country and the bold newcomers from California. With over 800 exquisite color photographs that inspire the palate, this sumptuous volume is a must for anyone interested in culture, food, and drink.      [The Sotheby's Wine Encyclopedia](#) Tom Stevenson, 2008-03-21

This important book brings together valuable resources and insights in a key area of practice which has often been overlooked and where disadvantage and discrimination are rife but which also deserves and demands serious attention of the kind offered here. Roger Smith, Professor of Social Work Research, De Montfort University, UK. This comprehensive book uniquely acknowledges the overlap between different states of adult vulnerability within a range of health, social care, and community contexts. The book looks beyond social work practice and legislative focus to examine the categories of at-risk and vulnerable adults. These include often-forgotten groups such as homeless people, prisoners, and migrant workers. Through a range of practical examples, the book illustrates how professionals can usefully and effectively intervene to lessen the chance of a member of an excluded community becoming at greater risk of further vulnerability. The book includes explanations of core themes and implications for a range of professionals and service providers with a practical and accessible focus. Case studies and practice examples from work with vulnerable groups illustrate examples of how different states of vulnerability are frequently contingent upon one another. *Working with Adults at Risk* from Harms' ideal for third-year undergraduate students and Master's students in the fields of social work, social care, community health, and education, as well as staff working in the public sector who will have contact with vulnerable individuals in their professional life. Contributors: Jill Aitken, David Bailey, Jennifer Burton, Caroline Cole, Jo Edwards, Michael Farquharson, Lalage Harries, Tennyson Mgutshini, Melanie Parris, and Kate Potter.      [The New Sotheby's Wine Encyclopedia](#) Tom Stevenson, Serena Sutcliffe, 2000-09-01

Authoritative, international, and up-to-date, *The New Sotheby's Wine Encyclopedia* is arranged geographically and combines nearly 100 detailed maps with information on all wine-growing areas, profiles of top producers, and assessments of individual wines. The book's easy-reference style and tremendous breadth of information make it an unrivaled source of wine information for both beginners and wine buffs. Distinguished wine authority Tom Stevenson examines the viticultural history of each winemaking country, discussing its wine-producing regions and the current reputation of its wines. He analyzes the factors affecting the taste and quality of each region's wines, location, aspect, soil, microclimates, grape varieties, and methods of viticulture and vinification, before assessing its appellations, the individual wine producers, chateaux, or wineries, and of course, the wines themselves. Tom Stevenson provides practical guidelines on wine

tasting while an author's choice chart at the end of each section lists the very best wines. A star rating system identifies the finest producers and highlights those offering the best value. A taste chart explains how to identify the flavors in a wine and a troubleshooter's guide spots common wine flaws. Whether you are a newcomer wanting to explore the pleasures of wine or a wine enthusiast looking for inspiration, *The New Sotheby's Wine Encyclopedia* is the book to consult again and again.
