COMPOSITION-INTERPRETATION- IMPROVISATION PROCESSES IN *XO PT. II* BY DINO REŠIDBEGOVIĆ: COMPARATIVE ANALYSIS OF TWO INTERPRETATIONS

Abstract: The composition *XO pt. II* for flute with processors, amplified cello, amplified piano and analog sound synthesizers, by Dino Rešidbegović, was published in 2016 as an electroacoustic adaptation of its previous version, *XO* for undetermined instrumentation. The phenomenon of the notation of both versions, presented through the graphic score, comes from the very idea of/about the composition. The score is divided into nine squares which form a network with incorporated abstract shapes of different colors. In the middle of the score is a chart of a spectral analysis of the composition *The Impact of the Analog Synthesizer* for ensemble, also by Rešidbegović. The only difference between the scores of the two versions is the instrumental parameters table involved in *XO pt. II* for three performers. The main task of this paper is primarily the analysis and comparison of two interpretations of *XO pt. II* by the same three performers, with a difference in duration of almost 19 minutes. The goal is to reconstruct and explicate the improvisation as a potential basis for a compositional-technical analysis. A composition-interpretation-improvisation processes chain represents the main structure of the general process which forms the composition *XO pt. II*, involving composer and performers – interpreted as equal, interdependent creators of the musical work.

Keywords: composition processes, graphic score, improvisation, electroacoustic ensemble, interpretation analysis, flute with processors, amplified cello, amplified piano, analog sound synthesizers
