Introducing Women's and Gender Studies approaches feminism in terms of major contributions, debates, and themes and focuses on the connectivity of these debates. The authors introduce a concept, knowledges, bodies, identities, equalities, representations, places, affects, and contextualize it with an introductory essay. The readings associated with each essay all of them contemporary take varied perspectives on each topic, e.g. identity and conformity, identity and nonconformity, identity's relation to biology, identity and sexuality, etc. The readings and introductory essays demonstrate how the topics are interconnected and allow students to make connections. The companion website will contain teaching tips, bonus readings, and other pedagogical materials.

This title provides a broad overview of how women are portrayed and treated in America's news and entertainment industries including film, television, radio, the internet, and social media. This book provides a one-stop resource for understanding the participation and representation of women in the U.S. media in such areas as narrative film, scripted television programming, advertising, video games, news, and sports. Coverage is wide-ranging and comprehensive, covering historical developments and trends as well as such relevant issues as gender disparities in pay and advancement, opportunities, stereotypical gender portrayals in popular entertainment, sexual harassment in America's media and entertainment industries, and the dearth of positive media representations of women of color. Engaging with this history and reading about current issues related to this topic will be useful to those interested in understanding more about why women's engagement in media in such roles as performer, journalist, producer, and writer is important. It will also help readers better understand how and why problematic media representations of women hinder efforts to achieve full gender equality in American society.
