Expanded Functions procedures boxes describe special dental assisting procedures allowed only in certain states. Procedure icons alert students to issues relating to core procedures, e.g., that they should make notes in the patient's record, don personal protective equipment, or watch for moisture contamination. Critical thinking questions end each chapter with mini case scenarios and application style questions. Learning and performance outcomes in each chapter set goals for what students will accomplish and also serve as checkpoints for comprehension, skills mastery, and study tools for exam preparation. Summary tables and boxes make it easy to review key concepts and procedures. Recall boxes appear after sections of text and include questions to ensure that students understand the material. CDC boxes cite the latest recommendations for infection control and summarize regulations. Eye to the Future boxes introduce cutting-edge research, future trends, and topics.
