**Quantitative Techniques in Participatory Forest Management** Eugenio Martinez-Falero, Susana Martin-Fernandez, Antonio D. Garcia-Abril, 2016-04-19 Forest management has evolved from a mercantilist view to a multi functional one that integrates economic social and ecological aspects However the issue of sustainability is not yet resolved Quantitative Techniques in Participatory Forest Management brings together global research in three areas of application inventory of the forest variables that determine the main environmental indices description and design of new environmental indices and the application of sustainability indices for regional implementations All these quantitative techniques create the basis for the development of scientific methodologies of participatory sustainable forest management

**Public Works Manual**, 2002 **Geomatica**, 2007 Canadian Journal of Forest Research, 2011 *Applications of Small Unmanned Aircraft Systems* J.B. Sharma, 2019-10-18 Advances in high spatial resolution mapping capabilities and the new rules established by the Federal Aviation Administration in the United States for the operation of Small Unmanned Aircraft Systems sUAS have provided new opportunities to acquire aerial data at a lower cost and more safely versus other methods A similar opening of the skies for sUAS applications is being allowed in countries across the world Also sUAS can access hazardous or inaccessible areas during disaster events and provide rapid response when needed Applications of Small Unmanned Aircraft systems Best Practices and Case Studies is the first book that brings together the best practices of sUAS applied to a broad range of issues in high spatial resolution mapping projects Very few sUAS pilots have the knowledge of how the collected imagery is processed into value added mapping products that have commercial and or academic import Since the field of sUAS applications is just a few years old this book covers the need for a compendium of case studies to guide the planning data collection and most importantly data processing and map error issues with the range of sensors available to the user community Written by experienced academics and professionals this book serves as a guide on how to formulate sUAS based projects from choice of a sUAS flight planning for a particular application sensors and data acquisition data processing software mapping software and use of the high spatial resolution maps produced for particular types of geospatial modeling Features Focus on sUAS based data acquisition and processing into map products Broad range of case studies by highly experienced academics Practical guidance on sUAS hardware sensors and software utilized Compilation of workflow insights from expert professors and professionals Relevant to academia government and industry Positional and thematic map accuracy UAS curriculum development and workflow replicability issues This book would be an excellent text for upper level undergraduate to graduate level sUAS mapping application courses It is also invaluable as a reference for educators designing sUAS based curriculum as well as for potential sUAS users to assess the scope of mapping projects that can be done with this technology
