[Panhellenism and the Barbarian in Archaic and Classical Greece](#) Lynette Mitchell, 2007-12-31 This is the first book in English to provide a systematic treatment of Panhellenism The author argues that in archaic and classical Greece Panhellenism defined the community of the Hellenes and gave it political substance Panhellenism also responded to other needs of the community in particular serving to locate the Hellenes in time and space One of the chief Panhellenic narratives the war against the barbarian provided the conceptual framework in which Alexander the Great could imagine his Asian campaign

The Making of Barbarians Haun Saussy, 2022-05-10 A groundbreaking account of translation and identity in the Chinese literary tradition before 1850 with important ramifications for today Debates on the canon multiculturalism and world literature often take Eurocentrism as the target of their critique But literature is a universe with many centers and one of them is China The Making of Barbarians offers an account of world literature in which China as center produces its own margins Here Sinologist and comparatist Haun Saussy investigates the meanings of literary translation adaptation and appropriation on the boundaries of China long before it came into sustained contact with the West When scholars talk about comparative literature in Asia they tend to focus on translation between European languages and Chinese Korean and Japanese as practiced since about 1900 In contrast Saussy focuses on the period before 1850 when the translation of foreign works into Chinese was rare because Chinese literary tradition overshadowed those around it The Making of Barbarians looks closely at literary works that were translated into Chinese from foreign languages or resulted

from contact with alien peoples The book explores why translation was such an undervalued practice in premodern China and how this vast and prestigious culture dealt with those outside it before a new group of foreigners Europeans appeared on the horizon

The Invention of Racism in Classical Antiquity Benjamin Isaac,2004 The Invention of Racism in Classical Antiquity further suggests that an understanding of ancient attitudes toward other peoples shed light not only on Greco Roman imperialism and the ideology of enslavement of foreigners in those societies and on foreigners concomitant integration or non integration but also on the disintegration of the Roman Empire and on more recent imperialism as well
