Committee on Remediation of Buried and Tank Wastes, Commission on Geosciences, Environment and Resources, Division on Earth and Life Studies, National Research Council, 1997-03-21 To control the migration of radioactive and hazardous wastes currently contained underground barriers made of natural materials and man made substances are constructed atop and possibly around the contaminated area Barrier Technologies for Environmental Management provides a brief summary of the key issues that arose during the Workshop on Barriers for Long Term Isolation Recurring themes from the session include the importance of quality control during installation followed by periodic inspection maintenance and monitoring and documentation of installation and performance data The book includes papers by the workshop presenters

**Groundwater and Soil Cleanup** National Research Council, Division on Earth and Life Studies, Commission on Geosciences, Environment and Resources, Committee on Technologies for Cleanup of Subsurface Contaminants in the DOE Weapons

Complex, 1999-10-21 This book presents a comprehensive up to date review of technologies for cleaning up contaminants in groundwater and soil It provides a special focus on three classes of contaminants that have proven very difficult to treat once released to the subsurface metals radionuclides and dense nonaqueous phase liquids such as chlorinated solvents

Groundwater and Soil Cleanup was commissioned by the Department of Energy DOE as part of its program to clean up contamination in the nuclear weapons production complex In addition to a review of remediation technologies the book describes new trends in regulation of contaminated sites and assesses DOE s program for developing new subsurface cleanup technologies *Hazardous and Industrial Waste Proceedings, 28th Mid-Atlantic Conference* A. Scott

Weber, 1996-07-15 This book is a compilation of the papers presented at the Twenty Eighth Mid Atlantic Industrial and Hazardous Waste Conference It aims to provide a forum for those who are interested in the advancement and applications of technologies and methods for managing industrial and hazardous waste **Advances in Environmental Geotechnics**

Yunmin Chen, Xiaowu Tang, Liangtong Zhan, 2011-02-04 Advances in Environmental Geotechnics presents the latest developments in this interdisciplinary field The topics covered include basic and advanced theories for modeling of geoenvironmental phenomena testing and monitoring for geoenvironmental engineering municipal solid wastes and landfill engineering sludge and dredged soils geotechnical reuse of industrial wastes contaminated land and remediation technology applications of geosynthetics in geoenvironmental engineering geoenvironmental risk assessment management and

sustainability ecological techniques and case histories This proceedings includes papers authored by core members of ISSMGE TC5 International Society of Soil Mechanics and Geotechnical Engineering Environmental Geotechnics and geoenvironmental researchers from more than 20 countries and regions It is a valuable reference for geoenvironmental and geotechnical engineers as well as civil engineers Yunmin Chen Xiaowu Tang and Liangtong Zhan are Professors at the Department of Civil Engineering of Zhejiang University China **Hazardous and Industrial Wastes**, 1996

Environmental Cleanup at Navy Facilities Committee on Environmental Remediation at Naval Facilities, 1999 The fiscal and technological limitations associated with cleaning up hazardous waste sites to background conditions have prompted responsible parties to turn to risk based methods for environmental remediation Environmental Cleanup at Navy Facilities reviews and critiques risk based methods including those developed by the U S Environmental Protection Agency and the American Society of Testing and Materials These critiques lead to the identification of eleven criteria that must be part of any risk based methodology adopted by the Navy a responsible party with a large number of complex and heavily contaminated waste sites January **NTIS Products** United States. National Technical Information Service, 1997 Managing Contaminated Sites D. Kofi Asante-Duah, 1996 The effective management of contaminated sites is an important environmental issue requiring comprehensive corrective planning The focus of the book is to synthesise technically sound principles techniques that can be applied worldwide **Encyclopedia of Environmental Analysis and Remediation, Volume 3** Robert A. Meyers, 1998 With the growing concern over the environment new industries and research areas have been developed to identify monitor regulate and legislate environmental interactions as well as to determine and repair existing environmental damage For both the expert and the newcomer a quick convenient and comprehensive source is needed to answer questions on the rapidly increasing amount of environmental information The Encyclopedia of Environmental Analysis and Remediation EEAR responds to this need by providing the reader with an in depth examination of the environmental analysis and remediation fields in a single eight volume reference source *Remediation of Sites with Mixed Contamination of Radioactive and Other Hazardous Substances* International Atomic Energy Agency, 2006 The IAEA has issued this publication to address the complex issue of remediation of sites with mixed contamination This type of contamination poses a particular challenge because of the combination of types of hazards and potential exposures While radionuclides and toxic heavy metals pose similar and mostly compatible challenges organic contaminants often require different approaches that may not be compatible with the former Additional complexity is introduced into the problem by a different and sometimes conflicting regulatory framework for radiological and non radiological contamination including the prescribed waste management routes **Using Waste Foundry Sands as a Reactive Media in Permeable Reactive Barriers** Taeyoon Lee, 2002 Government Reports Announcements & Index, 1996 **Geo-engineering for Underground Facilities** Gabriel Fernandez, Robert A.
