Shah,1994 The only book to bring the end user step by step through the configuration of X Windows on PC Macintosh X terminal and UNIX systems this A to Z guide to X Windows provides comprehensive coverage of the vital end user issues system administration and usage troubleshooting security customization and performance

**Information Assurance** Andrew Blyth,Gerald L. Kovacich,2013-04-17 When you first hear the term Information Assurance you tend to conjure up an image of a balanced set of reasonable measures that have been taken to protect the information after an assessment has been made of risks that are posed to it In truth this is the Holy Grail that all organisations that value their information should strive to achieve but which few even understand Information Assurance is a term that has recently come into common use When talking with old timers in IT or at least those that are over 35 years old you will hear them talking about information security a term that has survived since the birth of the computer In the more recent past the term Information Warfare was coined to describe the measures that need to be taken to defend and attack information This term however has military connotations after all warfare is normally their domain Shortly after the term came into regular use it was applied to a variety of situations encapsulated by Winn Schwartz as the three classes of Information Warfare Class 1 Personal Information Warfare Class 2 Corporate Information Warfare Class 3 Global Information Warfare Political sensitivities lead to warfare being replaced by operations a much more politically correct word Unfortunately operations also has an offensive connotation and is still the terminology of the military and governments

PowerBuilder Joseph J. Bambara,Paul R. Allen,1995 Coverage ranges from the basics to building full scale systems Readers are shown step by step how to design an application and set up the PowerBuilder development environment create a window menu interface build windows menus and data windows debug and refine code build common functions and user objects distribute applications and use Powerbuilder for database administration
