Alcoholism In The Professions:

Alcoholism in the Professions LeClair Bissell, Paul W. Haberman, 1984 This pioneering volume describes the first longitudinal study of alcoholic men and women in the professions Based on personal interviews with 407 professionals over a five year period the book offers the first published data on alcoholic attorneys and the only follow up study on alcoholic physicians nurses dentists and social workers In addition the authors provide an international directory of support advocacy and disciplinary groups for alcoholic professionals with complete information on whom to contact and requirements for membership

Drinking Careers Martin A. Plant, 1979 The central concern of this book is the relationship between an individual's drinking habits and social setting The way in which a person drinks or does not drink is influenced by age sex religion nationality and possibly by personality and heredity In spite of this people's drinking habits frequently and sometimes dramatically change as do their experiences of the problems which if extreme or numerous enough are sometimes called alcoholism This book is an empirical rather than theoretical work It does not attempt to expound a general theory of either normal or deviant drinking

Introduction *Alcohol Problems in Employment* Brian D. Hore, Martin A. Plant, 2023-12-01 The majority of problem drinkers are not unemployed derelicts but are employed persons often with senior positions in commerce the professions and industry Furthermore it is well known that alcohol causes widespread absenteeism inefficiency and accidents at work Originally published in 1981 *Alcohol Problems in Employment* reviews the evidence relating to the general effects of alcohol misuse on employment and the special problems involved in certain high risk industries at the time A number of international case studies are then presented to illustrate what was being done to counter the problem

Research on Alcoholics Anonymous and Spirituality in Addiction Recovery Marc Galanter, Lee Anne Kaskutas, 2008-12-05 It was once taken for granted that peer assisted groups such as Alcoholics Anonymous had no real value in recovery from addiction More recently evidence based medicine is recognizing a spiritual component in healing especially when it comes to addiction The newest edition of *Recent Developments in Alcoholism* reflects this change by focusing on the 12 step model of recovery as well as mindfulness meditation and other spiritually oriented activity More than thirty contributors bring together historical background research findings and clinical wisdom to analyze the compatibility of professional treatment and nonprofessional support day to day concepts of relapse prevention the value of community building in recovery and much more Among the topics covered

- 1 How and why 12 step groups work
- 2 The impact of the spiritual on mainstream treatment
- 3 The impact of AA on other nonprofessional recovery programs
- 4 AA outcomes for special populations
- 5 Facilitating involvement in 12 step programs
- 6 Methods for measuring religiousness and spirituality in alcohol research

Whether one is referring clients to 12 step programs or seeking to better understand the process this is a unique

resource for clinicians and social workers Developmental psychologists too will find Volume 18 Research on Alcoholics Anonymous and Spirituality in Addiction Recovery a worthy successor to the series

Treatment and Rehabilitation of the Chronic Alcoholic Benjamin Kissin,2012-12-06 The present volume contains a large variety of treatment approaches to the long term rehabilitation of the alcoholic ranging from the biological to the physiological to the psychological to the social The multiplicity of proposed therapies each of which has its strong proponents suggests that alcoholism is either a complex medical social disease syndrome requiring a multipronged treatment approach or a very simple illness for which we have not yet discovered the remedy The latter may indeed be true but we cannot use what we do not know and must use what we do know We do however have the obligation to be responsible in our treatment to provide the best that is known at this time and to be discriminating in our prescription of appropriate treatment for individual patients If there is one conclusion we would like to offer in our preface it is that alcoholics constitute a markedly heterogeneous population with widely disparate needs for whom at least at our present level of knowledge a broad spectrum of treatment modalities is necessary If this is true then probably most of this book has validity With this volume on the treatment and rehabilitation of the chronic alcoholic we bring to completion our five volume series The Biology of Alcoholism As the title of the present volume indicates we have departed from our original intention to deal solely with biological aspects of the syndrome and have attempted rather to produce a more comprehensive work
