unprecedented quantities of material showed the absolute necessity of providing centralised direction of mass war production. The Great War completely upset normal industrial conditions. Preparing this history of the Ministry of Munitions was started during the War itself. It was felt that consulting the officials concerned whilst they were still in post was vital, particularly as many such posts were temporary and while the questions with which the history would deal were vividly present in their minds. Volume V concerns Control of Men's Wages, Control of Women's Wages, Welfare, The Control of Working Conditions, The Provision of Canteens, Provision for the Housing of Munition Workers.
