no other species have the capacity to create and understand language It provides structure to our thoughts allowing us to  
plan communicate and create new ideas without limit Yet we have only finite experiences and our languages have finite  
stores of words Where does our linguistic creativity come from How does the endless scope of language emerge from our  
limited selves Drawing on research from neuroscience psychology and linguistics David Adger takes the reader on a journey  
to the hidden structure behind all we say or sign and understand Along the way you ll meet children who created language  
out of almost nothing and find out how new languages emerge using structures found in languages spoken continents away  
David Adger will show you how the more than 7000 languages in the world appear to obey the same deep scientific laws how  
to invent a language that breaks these and how our brains go crazy when we try to learn languages that just aren t possible  
You ll discover why rats are better than we are at picking up certain language patterns why apes are far worse at others and  
how artificial intelligences such as those behind Alexa and Siri understand language in a very un human way Language  
Unlimited explores the many mysteries about our capacity for language and reveals the source of its endless creativity
