**Handbook of African American Psychology** Helen A. Neville, Brendesha M. Tynes, Shawn O. Utsey, 2008-11-12 The Handbook of African American Psychology provides a comprehensive guide to current developments in African American psychology. It presents theoretical, empirical, and practical issues that are foundational to African American psychology. It synthesizes the debates in the field and research designed to understand the psychological, cognitive, and behavioral development of African Americans. The breadth and depth of the coverage in this handbook offers both foundational material and current developments. Although similar topics will be covered in this text that are included in other works, this will be the only work in which experts in the field write on contemporary debates related to these topics. Moreover, the proposed text incorporates other issues that are typically not covered in related books. The contributing authors also identify gaps in the literature and point to future directions in research, training, and practice.

**Key Features:** Contains the writings of renowned editors and contributors. The most well-respected and accomplished editors and authors in the area of African American psychology and psychology in general have come together to lend their expert analysis of issues and research in this field. Designed for course use. With a consistent format from chapter to chapter and sections on historical development, cutting-edge theories, assessment, intervention, methodology, and development issues, instructors will find this handbook appropriate for use with upper-level undergraduate and graduate-level classes. Offers unique coverage. The authors discuss issues not typically found in other books on African American psychology, such as ethics, certification, the gifted and talented, Hip Hop, and youth culture, common misconceptions about African Americans, and within-group differences related to gender, class, age, and sexual orientation.

**Resources in Education**, 1990-10      **Racism in Contemporary America** Meyer

Weinberg, 1996-05-23 *Racism in Contemporary America* is the largest and most up-to-date bibliography available on current research on the topic. It has been compiled by award-winning researcher Meyer Weinberg, who has spent many years writing and researching contemporary and historical aspects of racism. Almost 15,000 entries to books, articles, dissertations, and other materials are organized under 87 subject headings. In addition, there are author and ethnic racial indexes. Several aids help the researcher access the materials included. In addition to the subject organization of the bibliography, entries are annotated whenever the title is not self-explanatory. An author index is followed by an ethnic racial index, which makes it convenient to follow a single group through any or all the subject headings. This is a source book for the serious study of America's most enduring problem, as such it will be of value to students and researchers at all levels and in most disciplines.

*Mothering Inner-city Children* Katherine Brown Rosier, 2000. Based on three years of interviews and observations with Indianapolis mothers analyzing the families in their homes, schools, and other social settings, this book brings forth the voices of mothers in creating a portrait of low-income African American families rearing children.

*A Resource Guide on Black Families in America*, 1980      *Origins*, 1992      *Boys and Men in African American Families* Linda M. Burton, Dorian

Burton, Susan M. McHale, Valarie King, Jennifer Van Hook, 2016-12-09 This important volume takes a life course approach in sharing empirical insights on the family experiences of African American males in socioeconomic and political contexts. Representing fields ranging from developmental psychology to public health and sociology to education, chapters identify challenges facing black men and boys in the U.S. as well as family and community sources of support and resilience. Survey findings and exemplar case studies illustrate stressors and risk factors uniquely affecting African American communities, and tailored prevention and intervention strategies are described at the personal, family, and societal levels. These interdisciplinary perspectives not only encourage additional research but inspire the continued development of appropriate interventions relevant to practice and equitable policy. Included in the coverage: The adjustment and development of African American males; Conceptual frameworks and emerging research opportunities; A trauma-informed approach to affirming the humanity of African American boys and supporting healthy transitions to manhood; Humanizing developmental science to promote positive development of young men of color; Families, prisoner reentry, and reintegration; Safe spaces for vulnerability; New perspectives on African Americans who struggle to be good fathers; They can't breathe: Why neighborhoods matter for the health of African American men and boys; Promoting diversity in the research agenda to reflect a diverse population; Boys and Men in African American Families is an invaluable reference for research professionals particularly interested in sociology, public policy, anthropology, urban and rural studies, and African American studies. Survey and ethnographic studies of poverty, inequality, family processes, and child, adolescent, and adult health and development are featured.

**The Black Family** Robert Staples, 1999. Many of the articles in this edition are new, delving into such areas as welfare reform, stress, and male/female relationships; the movement to redefine the racial labels of Blacks with a recent biracial heritage; and sexual risk-taking. Expanded sections on parenting, marriage, and divorce, and family violence focus your attention on these key areas of current interest.

**The Strengths of African American Families** Robert B. Hill, 1999-01-28. Returning to his innovative work of twenty-five years ago, Robert Hill once more offers an incisive analysis of five key cultural strengths of African American families. With compassion and eloquence, he argues that these existing strengths provide a solid foundation upon which to develop the kind of public policies and self-help initiatives that will truly promote the interests not only of the African American community but of our diverse nation as a whole.
