Black Metropolis Volume 1:

The Black Struggle for Public Schooling in Nineteenth-Century Illinois Robert L. McCaul, 2009-03-10 In the pre Civil War and Civil War periods the Illinois black code deprived blacks of suffrage and court rights and the Illinois Free Schools Act kept most black children out of public schooling But as McCaul documents they did not sit idly by They applied the concepts of bargaining power rewarding punishing and dialectical and the American ideal of community to participate in winning two major victories during this era By the use of dialectical power exerted mainly via John Jones tract The Black Laws of Illinois they helped secure the repeal of the state s black code by means of punishing power mainly through boycotts and invasions they exerted pressures that brought a cancellation of the Chicago public school policy of racial segregation McCaul makes clear that the blacks struggle for school rights is but one of a number of such struggles waged by disadvantaged groups women senior citizens ethnics and immigrants He postulates a stage pattern for the history of the black struggle a pattern of efforts by federal and state courts to change laws and constitutions followed by efforts to entice force or persuade local authorities to comply with the laws and constitutional articles and with the decrees of the courts

Black San Francisco Albert S. Broussard, 1993-04-26 By 1867 black San Franciscans had gained access to public transportation In 1869 they were granted the right to vote by the state of California In 1875 they fought for desegregated schools and won Yet in 1957 Willie Mays was initially denied the opportunity to purchase a home in an exclusive San Francisco neighborhood because he was black In *Black San Francisco* Albert Broussard explores race relations in a city where whites for the most part were outwardly civil to blacks while denying them employment opportunities and political power Understanding the texture of the racial caste system he argues is critical to understanding why blacks made so little progress in employment housing and politics despite the absence of segregation laws When it came to racial equality in the early twentieth century Broussard argues the liberal progressive image of San Francisco was largely a facade Illustrating how black San Franciscans struggled to achieve equality in the same manner as their counterparts in the Midwest and East he challenges the rhetoric of progress and opportunity with evidence of the reality of inequality for black San Franciscans *Black San Francisco* is considerably broader in scope than any previous study of African Americans in the West It provides extensive coverage of the city s black community during the Great Depression and the New Deal details civil rights activities from 1915 to 1954 and provides extensive biographical material on local black leaders In his reconstruction of the plight of San Francisco s black citizens Broussard reveals a population that despite its small size before 1940 did not accept second class citizenship passively yet remained nonviolent into the 1960s He also shows how World War II was a watershed for Black San Francisco bringing thousands of southern migrants to the bay area to work in the war industries These migrants in tandem with native black residents formed coalitions with white liberals to attack racial inequality more vigorously and successfully than at any previous time in San Francisco s history
