Black Experience In Maryland:

The Black Experience and Navigating Higher Education Through a Virtual World Hairston, Kimetta R., Edmonds, Wendy M., Clark, Shanetia P., 2021-06-25 The treasure of the Black experience at a Historically Black College University HBCU is that it offers a personal and intimate experience rooted in Black heritage that cannot be found at other institutions On campus face to face instruction and activities focused on addressing issues that plague the Black community are paramount This provides students with small classroom environments and the personal support from administrators faculty and staff In March 2020 the Black experience was interrupted when a global pandemic forced governors to declare states of emergencies and mandate stay at home orders The stay at home orders forced universities to transition into fully remote environments Doing so heightened an array of emotions compounded by the reality of previously recognized disparities in resources and funding amongst higher education institutions As a result of this abrupt transformation the HBCU experience was impacted by positive and negative implications for Black people at the campus local state and national levels The Black Experience and Navigating Higher Education Through a Virtual World explores the reality of the Black experience from various perspectives involving higher education institutions with a focus on HBCUs The book provides an overview and analysis of a virtual experience that goes beyond the day to day technological implications and exposes innovative ideas and ways of navigating students and faculty through a remote world It focuses on heightening the awareness of disparities through the Black experience in a virtual environment provides guidance on transitioning to fully remote environments examines leadership dynamics in virtual environments analyzes mental health balance and examines implications on the digital divide Covering topics such as online course delivery self health and social justice this book is essential for graduate students academicians diversity officers in the academy professors and researchers

Black Social Capital Marion Orr, 1999 Deindustrialization white flight and inner city poverty have spelled trouble for Baltimore schools Marion Orr now examines why school reform has been difficult to achieve there revealing the struggles of civic leaders and the limitations placed on Baltimore s African American community as each has tried to rescue a failing school system Examining the interplay between government and society Orr presents the first systematic analysis of social capital both within the African American community black social capital and outside it where social capital crosses racial lines Orr shows that while black social capital may have created solidarity against white domination in Baltimore it hampered African American leaders capacity to enlist the cooperation from white corporate elites and suburban residents needed for school reform Orr examines social capital at the neighborhood level in elite level interactions and in intergovernmental relations to argue that black social capital doesn t necessarily translate into the kind of

intergroup coalition needed to bring about school reform He also includes an extensive historical survey of the black community showing how distrust engendered by past black experiences has hampered the formation of significant intergroup social capital The book features case studies of school reform activity including the first analysis of the politics surrounding Baltimore s decision to hire a private for profit firm to operate nine of its public schools These cases illuminate the paradoxical aspects of black social capital in citywide school reform while offering critical perspectives on current debates about privatization site based management and other reform alternatives Orr s book challenges those who argue that social capital alone can solve fundamentally political problems by purely social means and questions the efficacy of either privatization or black community power to reform urban schools **Black Social Capital** offers a cogent conceptual synthesis of social capital theory and urban regime theory that demonstrates the importance of government politics and leadership in converting social capital into a resource that can be mobilized for effective social change **Establishing Exceptionalism**
