Contours of African American Politics Georgia A. Persons, 2014-03-31 *Contours of African American Politics* chronicles the systematic study of African American politics and its subsequent recognition as an established field of scholarly inquiry African American politics emanates from the demands of the prolonged struggle for black liberation and empowerment Hence the study of African American politics has sought to track codify and analyze the struggle that has been mounted and to understand the historic and changing political status of African Americans within American society The notion of a post racial America is one that was birthed by the election of Barack Obama as the first African American president of the United States However another reality is equally compelling that for some time now many African American aspirants for elective office have run against race specific issues putting individual desires to win office above the conventionally defined collective interests of black folk Clearly the Obama presidential election crystallized a complexity of change that had been underway in America prior to his election Indeed did the Obama election signal the end of black politics Does race remain a useful construct for framing the collective interests of African Americans Volume III of

Contours of African American Politics examines all of these questions in an effort to understand the more poignant question of the future of that which we have known as black politics *Black Political Mobilization, Leadership, Power and Mass Behavior* Minion K. C. Morrison, 1987-01-01 Black Political Mobilization accounts for the political success of black Americans in the South Minion Morrison returns to Mississippi the center of much of the political activism of the 1960s to analyze the remarkable improvement in black electoral participation in the years following passage of the Voting Rights Act of 1965 Mississippi's substantial black population has experienced marked electoral success despite a history of strict racial exclusion The dramatic and widespread nature of mobilization there makes it one of the most illustrative case studies for exploring this period of political change in America Mississippi represents a broader phenomenon of political change that sustains a new leadership class in the Southern region Three rural Mississippi towns serve as the focal point for the study They each have a population of under 2 000 have overwhelming Afro American voting majorities are poor and largely agricultural have been affected by the civil rights movement of the 60s and have elected a black mayor since 1973 The towns are prime examples of the character and process of minority electoral politics and mobilization in the rural South A new class of black leaders is nurtured and installed in office in an environment where a newly and highly mobilized constituency takes advantage of its majority status in the electorate This book combines good theory with lively interviews and rich case histories to highlight an essentially new variety of participatory democracy in American politics and government

**Contours of African American Politics** Georgia A. Persons, 2017-10-02 Contours of African American Politics chronicles the systematic study of African American politics and its subsequent recognition as an established field of scholarly inquiry African American politics emanates from the demands of the prolonged struggle for black liberation and empowerment Hence the study of African American politics has sought to track codify and analyze the struggle that has been mounted and to understand the historic and changing political status of African Americans within American society This two volume set presents a selection of scholarship on African American politics as it appeared in The National Political Science Review from its initial launch in 1989 to the spring of 2009 Represented are contributions from some of the leading scholars of African American politics who have helped to establish and sustain the field The volumes are organized around themes that derive from the unfolding real life drama of African American politics and its subsequent scholarly treatment The result is a window into the political efforts that meld the historically disparate strands of black political expressions into a reconstructed and strategically nimble electoral based mass mobilization necessary for optimizing the impact of the African American vote Sections in the volumes also chronicle the evolution of the National Conference of Black Political Scientists as a professional organization The two volumes illuminate a pivotal epoch in black political empowerment and provide a context for the future of black politics *Bibliography on Racism, 1972-1975* Center for Minority Group Mental Health Programs (U.S.), 1978 **From Margin to Mainstream** Sethard Fisher, 1982 *America, History and Life*, 2001 Article abstracts

Broussard,1993 This work explores race relations in the city of San Francisco where whites for the most part were outwardly civil to blacks while denying them employment opportunities and political power The author argues that it is essential to understand the nature of the racial caste system **Indiana Magazine of History** ,1913 *Congressional Record* United States. Congress,1970 **Unfair Housing** Mara S. Sidney,2003 Why do most neighbourhoods in the United States continue to be racially divided In this work author Mara Sidney offers a fresh explanation for the persistent colour lines in America s cities by showing how weak national policy has silenced and splintered grassroots activists *Participation of the Black Community in Selected Aspects of the Educational Institution of Newark, 1958-1972* William M. Butters,2002 In early twentieth century motion picture houses offensive stereotypes of African Americans were as predictable as they were prevalent Watermelon eating chicken thievery savages with uncontrollable appetites Sambo and Zip Coon were all representations associated with African American people Most of these caricatures were rendered by whites in blackface Few people realize that from 1915 through 1929 a number of African American film directors worked diligently to counter such racist definitions of black manhood found in films like D W Griffith s *The Birth of a Nation* the 1915 epic that glorified the Ku Klux Klan In the wake of the film s phenomenal success African American filmmakers sought to defend and redefine black manhood through motion pictures Gerald Butters s comprehensive study of the African American cinematic vision in silent film concentrates on works largely ignored by most contemporary film scholars African American produced and directed films and white independent productions of all black features Using these race movies to explore the construction of masculine identity and the use of race in popular culture he separates cinematic myth from historical reality the myth of the Euro American controlled cinematic portrayal of black men versus the actual black male experience Through intense archival research Butters reconstructs many lost films expanding the discussion of race and representation beyond the debate about good and bad imagery to explore the construction of masculine identity and the use of race as device in the context of Western popular culture He particularly examines the filmmaking of Oscar Micheaux the most prolific and controversial of all African American silent film directors and creator of the recently rediscovered *Within Our Gates* the legendary film that exposed a virtual litany of white abuses toward blacks *Black Manhood on the Silent Screen* is unique in that it takes contemporary and original film theory applies it to the distinctive body of African American independent films in the silent era and relates the meaning of these films to larger political social and intellectual events in American society By showing how both white and black men have defined their own sense of manhood through cinema it examines the intersection of race and gender in the movies and offers a deft interweaving of film theory American history and film history **The Black**
