Britain 1945 1970:

Britain, 1945-1970 Leonard Ashby Monk, 1976 **Britain, 1945-1970** Leonard Ashley Monk, 1976 *A Bibliography of British History, 1914-1989* Keith Robbins, American Historical Association, Royal Historical Society (Great Britain), 1996

Containing over 25 000 entries this unique volume will be absolutely indispensable for all those with an interest in Britain in the twentieth century Accessibly arranged by theme with helpful introductions to each chapter a huge range of topics is covered There is a comprehensive index *Anglo-American Relations in the Twentieth Century* Ritchie Ovendale, 1998-10-30

A critique of Anglo American relations in the twentieth century in the light of the most recent research It challenges many existing interpretations and argues that the basis of the Anglo American special relationship was laid by Roosevelt and Chamberlain that Roosevelt preferred Stalin to Churchill and that the origins of the Cold War should be seen as a British education of the Americans to the Soviet threat Suez is reassessed following the recent release of material in the Eisenhower Library There is a consideration of the relationship of mutual interdependence and why Wilson and Heath chose to move instead towards the European connection as well as Mrs Thatcher s reasons for preferring the Atlantic alliance *A neoliberal revolution?* Aled Davies, James Freeman, Hugh Pemberton, 2024-07-09

This book examines the Thatcher government s attempt to revolutionise Britain s pensions system in the 1980s and create a nation of risk taking savers with an individual stake in capitalism Drawing upon recently released archival records it shows how the ideas motivating these reforms journeyed from the writings of neoliberal intellectuals into government and became the centrepiece of a plan to abolish significant parts of the UK s welfare state and replace these with privatised personal pensions Revealing a government that veered between political caution and radicalism the book explains why this revolution failed and charts the malign legacy left by the evolutionary changes that ministers salvaged from the wreckage of their reforms The book contributes to understanding of policy change Thatcherism and international neoliberalism by showing how major reforms to social security could reflect neoliberal thought and yet profoundly disappoint their architects **The Labour Party, Housing and Urban Transformation** Phil Child, 2024-05-16

The Labour Party Housing and Urban Transformation explores how the urban transformation of Britain between 1945 and 1970 was understood politically by the Labour Party Placing the Labour Party at the centre of the discussion the book covers the most extensive period of state led urban change in British history from the end of the Second World War to the decline of high modernism in the late 1960s Taking a particular focus on housing to explore the implementation of modernist ideas to drive a far ranging process of urban transformation in Britain it challenges conventional understandings of Labour s urban legacy and puts political ideas at the heart of twentieth century change Utilising a breadth and range of material including two distinct sets of archival sources published secondary material national legislation and Housing Acts and various case studies Child moves seamlessly between the national picture and its local impacts It also draws from sources which had a crucial influence on political thinking throughout the mid twentieth

century to understand how urban transformation represented for Labour a political vision of the future A timely contribution both to urban history and to the history of post war Britain it challenges existing interpretations of modernism connects urban change to the political ideas that drove it and allows us to comprehend the state of urban Britain today

The Making of European Consumption P. Lundin, T. Kaiserfeld, 2015-01-26 American ideals and models feature prominently in the master narrative of post war European consumer societies This book demonstrates that Europeans did not appropriate a homogenous notion of America rather post war European consumption was a process of selective appropriation of American elements

The British National Bibliography Arthur James Wells, 2009

Armed Guests Sebastian Schmidt, 2020-10-29 In *Armed Guests* Sebastian Schmidt develops a theory to explain the emergence of this phenomenon which he calls sovereign basing and in doing so shows how this new practice fundamentally changed state sovereignty and the very nature of security competition He applies concepts derived from pragmatist thought to a historical study of the relations between the United States and its wartime allies to explain how sovereign basing originated through the efforts of policymakers to come to grips with the unique security environment of the postwar era

The Longman Handbook of Modern British History, 1714-1980 Chris Cook, John Stevenson, 1983

Historical Abstracts, 1996

Britain's Pensions Crisis Hugh Pemberton, Pat Thane, Noel Whiteside, 2006-10-19 In this volume leading experts on the past and present of pensions in Britain debate the present crisis and the lessons of history for those seeking to craft solutions to it that are both effective and enduring The volume also contains a number of chapters which draw important lessons from the experience of other European and North American countries over the past few decades

British History: Classification schedule. Classified listing by call number. Chronological listing Harvard University. Library, 1975

Welfare Policy Under the Conservatives, 1951-1964 Paul Bridgen, Rodney Lowe, 1998 This handbook summarizes the development of all welfare policies in the period 1951-1964 and provides a guide to records available or about to become available at the Public Record Office The previous volume in the series covered the years 1939 to 1951

Annual Bibliography of British and Irish History, 1998

Europe in the Twentieth Century Roland N. Stromberg, 1988 For courses in Twentieth Century Europe Written by a noted intellectual historian this concise interpretive history of twentieth century European society and civilization surveys the full range of social political economic cultural and diplomatic events from pre World War I to the 1990s

Arms Control & Disarmament, 1970

From Beveridge to Blair Margaret Jones, Rodney Lowe, 2002 The creation of Britain's welfare state in 1948 was an event of major international importance Designed to provide a concise introduction to the evolution of both the structure of the welfare state and attitudes towards it Concentrates on five core services health care education social security the personal social services and housing For each service it examines the original vision the attempts to implement this vision the resulting complexities and controversies and above all the impact on individual customers A wide range of documentary evidence is used including published and unpublished government sources political memoirs newspaper expos

and personal testimony **Government Versus the Market** Roger Middleton,1996 In *Government Versus the Market* Roger Middleton provides a comprehensive interdisciplinary and controversial analysis of how Britain's relative economic decline from the late nineteenth century onwards generated an intense debate about the legitimate roles of government and the market After a thorough analysis of Britain's long run economic performance in a comparative context which emphasizes how the problem of decline is frequently misunderstood and an account of the long run forces promoting and constraining government growth he then charts how the economic role of government evolved in response to decline but produced a mix of macroeconomic and microeconomic policies which proved inadequate for the task This major study emphasizes the institutional and political constraints to economic modernization and uses the specific characteristics of Britain's predicament a combination of market failure and impotent state to explain why by 1979 the burgeoning New Right were able to launch an attack upon big government Dr Middleton then demonstrates how Britain's subsequent economic performance while brilliantly propagandized as an economic renaissance has in fact been lacklustre and why the Conservatives economic strategy failed to address the underlying problems of decline and to reduce the size of the public sector *Government versus the Market* brings an unrivalled historical empirical and theoretical breadth to our understanding of the last century of British economic history as well as a wealth of material on economic performance and public sector growth and the fullest bibliography yet published on Britain's economic decline Comprehensive authoritative and wide ranging this extensive study uses a long term and comparative framework which draws upon the latest research of economists historians and political scientists to show why successive governments have been unable to halt Britain's relative economic decline
