British Airships:

British Airships 1905-30 Ian Castle,2013-01-20 This book reveals the fascinating story of the cat and mouse duel between the airship and another pioneering form of technology the submarine during World War 1 Detailed cut away drawings reveal the design and development of the airship during and after the war whilst full colour illustrations depict the airship in dramatic action shots A tragic accident in 1930 brought the airship s military service to an end resulting in a tiny window in which they were used and little acknowledgement over the years In this concise guide Ian Castle gives deserved attention to an aeronautical wonder that for a short amount of time played a crucial service to the defence of Britain
