garden makers of the late eighteenth century to the concerns of twenty first century gardeners this book charts its way across four centuries through a handsome and satisfying fusion of images and text The Garden of Ideas is embellished with an unparalleled array of images paintings drawings prints plans and photographs each richly evocative of their time and most never previously published Unearthed from around Australia and many from overseas these images carry the story of Australian garden style down the years in the process criss crossing social and cultural history across the wide extremes of our continent Richard Aitken whose book Botanical Riches was published in 2006 to popular and critical acclaim brings a lifetime of experience to The Garden of Ideas He achieves fresh insights and presents our passion for garden making with wit and flair The Garden of Ideas is a valuable source book for the sophisticated gardener and an indispensable companion for the garden lover
