Gallagher, David I. Kertzer, Alberto Melloni, 2012 The Vatican's opening of its archives in 2006 for the period of the papacy of Pius XI 1922-1939 has prompted a burst of historical research which is not only shedding new light on the role of the Holy See and the Church in this period of extraordinary political and social turmoil but also on some of the major world events of this period In 2008 a number of institutions created a research network bringing together scholars from different countries who are working in these archives and highlighting its emerging work to the broader scholarly community This book represents the proceedings from a conference of this research network held in Providence Rhode Island at the Brown University in October 2010 Series Christianity and History Series of the John XXIII Foundation for Religious Studies in Bologna Vol 11 As the essays reveal such a historic decision will impact the way that scholars interpret modern church history for years to come Yet as coeditor Charles Gallagher S J reminds us in his introduction the opening will also allow scholars to uncover a history which is not only papal but political cultural economic and global p 17 *The Catholic Historical Review* Vol 100 No 2 Spring 2014 Britain and the Ruhr Crisis E.
