American Remakes of British Television Carlen Lavigne, Heather Marcovitch, 2011-03-31 Ever since Norman Lear remade the BBC series Till Death Us Do Part into All in the Family American remakes of British television shows have become part of the American cultural fabric Indeed some of the programs currently said to exemplify American tastes and attitudes from reality programs like American Idol and What Not to Wear to the mock documentary approach of The Office are adaptations of successful British shows Carlen Lavigne and Heather Marcovitch's American Remakes of British Television Transformations and Mistranslations is a multidisciplinary collection of essays that focuses on questions raised when a foreign show is adapted for the American market What does it mean to remake a television program What does the process of Americanization entail What might the success or failure of a remade series tell us about the differences between American and British producers and audiences This volume examines British to American television remakes from 1971 to the present The American remakes in this volume do not share a common genre format or even level of critical or popular acclaim What these programs do have in common however is the sense that something in the original has been significantly changed in order to make the program appealing or accessible to American audiences The contributors display a multitude of perspectives in their essays British to American television remakes as a whole are explained in terms of the market forces

and international trade that make these productions financially desirable Sanford and Son is examined in terms of race and class issues Essays on Life on Mars and Doctor Who stress television's role in shaping collective cultural memories An essay on Queer as Folk explores the romance genre and also talks about differences in national sexual politics An examination of The Office discusses how the American remake actually endorses the bureaucracy that the British original satirized

A Concise History of British Television 1930-2000 Tony Currie, 2000 *Electronic Engineering*, 1928 *Experimental British television* Laura Mulvey, Jamie Sexton, 2015-07-01 Throughout its history British television has found a place if only in its margins for programmes that consciously worked to expand the boundaries of television aesthetics Even in the present climate of increased academic interest in television history its experimental tradition has generally either been approached generically or been lost within the assumption that television is simply a mass medium Available for the first time in paperback *Experimental British television* uncovers the history of experimental television bringing back forgotten programmes in addition to looking at relatively more privileged artists or programme strands from fresh perspectives The book therefore goes against the grain of dominant television studies which tends to place the medium within the flow of the everyday in order to scrutinise those productions that attempted to make more serious interventions within the medium
