The people of C T live within the shadows of a great Citadel It protects them from the blazing heat of the two suns that move across the skies overhead To survive they must live work and move amongst the shadows cast by the tall walls of the Citadel The avenues of C T have been constructed in layers of neighbourhoods around the mysterious edifice that towers above them from the centre of their lives Life in C T is highly regulated and is organized through specialized guilds As the nameless young narrator moves amongst the members of these guilds the Calligrapher the Smithy the Scholar the Philosopher the Money Lender etc we learn indirectly about peoples lives attitudes and understanding Yet most of all we look through the peoples eyes as they try to fathom the great mystery of the Citadel Yet at the very end of the journey we learn a surprising truth Until then the secret protects itself as it has always protected itself The Citadel is an allegory on human nature as well as an intriguing and entertaining narrative

Mount Meru He also reveals how the Hellenic cults of both Apollo and Artemis originated in southern Siberia as well as the sacred bear symbolism found throughout the ancient world Offering proof that advanced cultures existed in Europe before the immigration of Eastern peoples Ashe shows that early societies did not look into the future for perfection but to the past to the Golden Age of peace in the sacred northern mountains [Perilous Planet Earth](#) Trevor Palmer,2003-06-12 A readable account of the history of natural disasters throughout history **High Performance Review** ,1981 **Schwann-1, Record & Tape Guide** ,1980-07 *The Guide to Yellowstone Waterfalls and Their Discovery* Paul Rubinstein, Lee H.
