## **Citizenship In The World:**

Citizenship in the World Boy Scouts of America, 1986      **Citizenship in the World**, 1995 A handbook for earning the Boy Scout merit badge in Citizenship in the world      Citizenship In A Global Age Delanty, Gerard, 2000-12-01 This book provides a comprehensive and concise overview of the main debates on citizenship and the implications of globalization It argues that citizenship is no longer defined by nationality and the nation state but has become de territorialized and fragmented into the separate discourses of rights participation responsibility and identity      **Citizenship in a Globalizing World** Ashok Acharya, 2011 In recent times the notion of citizenship has become increasingly prominent as the traditional boundaries of the nation state face challenges from globalization multiculturalism and economic restructuring In this context Citizenship in a Globalizing World is a welcome addition in the field of political science as it takes a detailed look at the topic of citizenship from the origins of both citizenship and the state to various theories of citizenship and what it means in the modern context when it has to coexist with forces of globalization and the rise of new social groups      *Gender and Citizenship in the Global Age* Laroussi Amri, Ramola Ramtohol, 2014-12-29 One of the major issues this book examines is what the African experience and identity have contributed to the debate on citizenship in the era of globalisation This volume presents case studies of different African contexts illustrating the gendered aspects of citizenship as experienced by African men and women Citizenship carries manifold gendered aspects and given the distinct gender roles and responsibilities globalisation affects citizenship in different way It further examines new forms of citizenship emerging from the current era dominated by a neoliberal focus This book is not exclusive in terms of theorisation but its focus on African contexts with an in depth analysis taking into consideration local culture and practices and their implications for citizenship provides a good foundation for further scholarly work on gender and citizenship in Africa      **Local Citizenship in the Global Arena** Sally Findlow, 2016-11-03 Local Citizenship in the Global Arena proposes a reconsideration of both citizenship and citizenship education moving away equally from prevailing global citizenship and fundamental British values approaches towards a curriculum for education that is essentially about creating cosmopolitan included and inclusive politically engaged citizens of communities local national and global Viewing education as both problem and solution Findlow argues that today s climate of rapid and unpredictable geopolitical and cultural re scoping requires an approach to citizenship education that both reflects and shapes society paying attention to relationships between the local and global aspects of political voice equality and community Drawing on a range of international examples she explores the importance and possibilities of a form of education that instead of promoting divisive competition educates about citizenship in its various forms and encourages the sorts of open and radical thinking that can help young people cross ideological and physical borders and use their voice in line with their own and others real long term interests Successive chapters develop this argument by critically examining the key elements of citizenship discourses through the interrelated lenses of geopolitical change nationalism the competition fetish

critical pedagogy multiculturalism protest politics feminism and ecology and highlighting ways in which the situationally diverse lived realities of citizenship have been mediated by different forms of education The book draws attention to how we think of education s place in a world of combined globalisation localism anti state revolt and xenophobia It will be of key interest to academics researchers and postgraduate students in the fields of education political science philosophy sociology social policy cultural studies and anthropology
