City Of Refugees:

City of Refugees Susan Hartman, 2022-06-07 A gripping portrait of refugees who forged a new life in the Rust Belt the deep roots they've formed in their community and their role in shaping its culture and prosperity This is an American tale that everyone should read The storytelling is so intimate and the characters feel so deeply real that you will know them like neighbors Jake Halpern author of Welcome to the New World War persecution natural disasters and climate change continue to drive millions around the world from their homes In this tender intimate and important book a carefully reported rebuttal to the xenophobic narratives that define so much of modern American politics Sarah Stillman staff writer The New Yorker journalist Susan Hartman follows 3 refugees over 8 years and tells the story of how they built new lives in the old manufacturing town of Utica New York Sadia a Somali Bantu teenager rebels against her mother Ali an Iraqi interpreter creates a home with an American woman but is haunted by war and Mersiha a Bosnian baker gambles everything to open a caf Along the way Hartman illuminates the humanity of these outsiders while demonstrating the crucial role immigrants play in the economy and the soul of the nation Los Angeles Times The 3 newcomers are part of an extraordinary migration over the past 4 decades thousands fleeing war and persecution have transformed Utica opening small businesses fixing up abandoned houses and adding a spark of vitality to forlorn city streets Utica is not alone Other Rust Belt cities including Buffalo Dayton and Detroit have also welcomed refugees hoping to jump start their economies and attract a younger population City of Refugees is a complex and poignant story of a small city but also of America a country whose promise of safe harbor and opportunity is knotty and incomplete but undeniably alive

Displacement, Asylum and the City René Kreichauf, Birgit Glorius, 2023-05-22 This edited volume draws attention to the interlinked yet understudied relationship between the role of cities in dealing with international displacement and forced migration and the influence of forced migration in stimulating spatial societal and institutional transformations in and of cities In 2022 almost 84 million people worldwide were forcibly displaced More than two thirds of them reside in urban areas Displacement and forced migration are an urban experience and an urban story of those seeking protection This book helps us understanding the conditions of displaced population in cities and the way cities and urban actors respond to recent migration trends It applies an urban perspective to the analysis of migration processes and it provides insights into the urban governance of forced migration and asylum the production of spaces related to forced migration and the role of the displaced population as actors of urban change Thereby it covers a broad spectrum of topics including migrant dispersal welfare and social protection urban humanitarian policymaking and governance neighbourhood development migrant solidarity and refugee protest and new refugee and migrant destinations Given the increasing mobility and displacement of human populations this book provides a relevant prerequisite for readers interested in current urban forced migration and asylum trends and on the intersections of those topics The book will be of great value to researchers and academics of Geography Migration and Urban Studies The

chapters in this book were originally published as a special issue of Urban Geography International Migrants and the City Marcello Balbo, 2005 This new book which is jointly published by UN HABITAT and the Universit Iuav di Venezia gives an account of different policies practices and governance models that are addressing the issue of international migration in an urbanizing world The book reviews the policies and practices of ten cities including Bangkok Berlin Dakar Johannesburg Karachi Naples S Paulo Tijuana Vancouver and Vladivostok Key issues of analysis include the impact of national policies on international migration the role of migrants in the local economy the relationship between local and migrant communities and the migrants use of urban space It reveals the importance and the advantages of promoting communication between stakeholders and establishing channels for representation and participation of migrants in decisions affecting their livelihoods

The Sanctuary City Domenic Vitiello, 2022-08-15 In *The Sanctuary City* Domenic Vitiello argues that sanctuary means much more than the limited protections offered by city governments or churches sheltering immigrants from deportation It is a wider set of protections and humanitarian support for vulnerable newcomers Sanctuary cities are the places where immigrants and their allies create safe spaces to rebuild lives and communities often through the work of social movements and community organizations or civil society Philadelphia has been an important center of sanctuary and reflects the growing diversity of American cities in recent decades One result of this diversity is that sanctuary means different things for different immigrant refugee and receiving communities Vitiello explores the migration settlement and local and transnational civil society of Central Americans Southeast Asians Liberians Arabs Mexicans and their allies in the region across the late twentieth and early twenty first centuries Together their experiences illuminate the diversity of immigrants and refugees in the United States and what is at stake for different people and for all of us in our immigration debates
