in terms of social justice The contributors do not all speak with one voice but rather present a diversity of views on these important topics Included in the collection are the results of research on pupil outcomes and socio economic segregation issues of identity and ethos in church academies the problems of establishing free schools the history of policy on Academies and a comparison between Swedish independent schools and Academies and Free Schools This book was originally published as a special issue of Research Papers in Education *British Scientific Products Exhibition* Sir Richard Gregory,1919
