Civics Mary Jane Turner,1990 **El-Hi Textbooks & Serials in Print, 2005** ,2005 **Activity book** Mary Jane Turner,Charles E. Merrill Publishing Company,1986 Activities for Elementary School Social Studies James W. Stockard, Jr.,Mary Margaret Wogan,2010-04-09 According to Piaget all higher order thinking skills have their bases in activities involving concrete manipulation and observation The third edition of this highly regarded collection of social studies activities continues to be based on the premise that children learn best through experiences and activities learning by doing It features new activities for each social studies category geography history anthropology sociology economics political science and interdisciplinary Three important new additions to the key elements of the easy to follow activity format make it easier for instructors to meet standards based curriculum requirements A detailed treatment of National Council of Social Studies standards addressed specific multiple intelligences addressed also reinforced by a multiple intelligences section in the back of the book and useful Web site s for group individual research URLs for sites that will expand or enrich the learning experience for the activity By engaging pupils in meaningful worthwhile social studies activities instructors can emphasize the processes of learning rather than the products resulting in a richly rewarding experience for pupils and teacher alike Civic Writing in the Classroom Sandra Stotsky,1987 There are few curricular programs or activities in the schools which help students develop skills that enable them to participate actively in voluntary civic or political activities Literacy and especially civic writing is critical for participation in the civic process But teaching civic writing which is distinguished by its purposes contexts and a moral element in the writer s motivation has been neglected at all levels of education Teachers must create classroom conditions which elicit civic writing and suggest civic or political purposes for it Examples of advocacy writing which can be used to propose a public policy issue law to support or oppose a proposed law to propose a law designating a state symbol or special day to identify a problem and propose a solution and to influence attitudes about identified social or political issues are presented Methods of teaching and examples of civic writing which are motivated by a spirit of collaborative concern for others especially in regard to local government are presented These include providing information evaluating public programs expressing support and obtaining information Civic writing can have a positive effect on the students perceptions of themselves as writers and as citizens JHP **The Education Index** ,1991

Awakening Democracy through Public Work Harry C. Boyte,2018-11-15 In the face of authoritarian divisive trends and multiplying crises when politics as usual is stymied Awakening Democracy through Public Work shows it is possible to build foundations for a democratic awakening grounded in deep American traditions of a citizen centered commonwealth Awakening Democracy through Public Work begins with the story of Public Achievement a youth civic education and empowerment initiative with roots in the civil rights movement It describes Public Achievement s first home in St Bernard s a low income Catholic elementary school in St Paul Minnesota and how the program spread across the country and then

abroad giving birth to the larger concept of public work In Public Achievement young people practice citizen politics as they tackle issues ranging from bullying racism and sexual harassment to playground improvements curriculum changes and better school lunches They develop everyday political skills for working across differences and making constructive change Such citizen politics more like jazz than a set piece of music involves the interplay and negotiation of diverse interests and views sometimes contentious sometimes harmonious Public Achievement highlights young people's roles as co-creators builders of schools communities and democratic society They are not citizens in waiting but active citizens who do public work Awakening Democracy through Public Work also describes how public work can find expression in many kinds of work from education and health to business and government It is relevant across the sweep of society People have experimented with the idea of public work in hundreds of settings in thirty countries from Northern Ireland and Poland to Ghana and Japan In Burundi it birthed a national initiative to rework relations between villagers and police In South Africa it helped people in poor communities to see themselves as problem solvers rather than simply consumers of government services In the US at Denison University public work is being integrated into dorm life At Maxfield School in St Paul it is transforming special education In rural Missouri it led to the emPowerU initiative of the Heartland Foundation encouraging thousands of young people to stay in the region In Eau Claire Wisconsin it generated Clear Vision a program providing government support for citizen-led community improvements Public work has expanded into the idea of citizen professionals working with other citizens not on them or for them It has also generated the idea of civic science in which scientists see themselves as citizens and science as a resource for civic empowerment Awakening Democracy through Public Work shows that we can free the productive powers of people to work across lines and differences to build a better society and create grounded hope for the future
