The War Within the Union High Command Thomas Joseph Goss, 2003 As this book reveals professional generals viewed the war as a military problem requiring battlefield solutions while appointees and President Lincoln focused more emphatically on the broader political contours of the struggle The resulting friction often eroded Northern morale and damaged the North's war effort Goss challenges the traditional idea that success was measured only on the battlefield by demonstrating significant links between military success and the achievement of the Union's political objectives Examining commanders like Benjamin Butler Nathaniel Banks John McClelland John Fremont and Franz Sigel Goss shows how many filled vital functions by raising troops boosting homefront morale securing national support for the war and sometimes even achieving significant success on the battlefield
