*Non-Western Educational Traditions* Timothy G. Reagan,2004-09-22 This text provides a brief yet comprehensive overview of a number of non Western approaches to educational thought and practice Its premise is that understanding the ways that other people educate their children as well as what counts for them as education may help us think more clearly about some of our own assumptions and values and to become more open to alternative viewpoints about important educational matters The value of this informative mind opening text for preservice and in service teacher education courses is enhanced by Questions for Discussion and Reflection and Recommended Further Readings included in each chapter New in the Third Edition Chapter 2 Conceptualizing Culture I We and The Other is new to this edition It is a response to feedback about the problems inherent in our general discourse about culture and in addition provides an example of a culture that is near to us but nevertheless alien the culture of the Deaf World Chapter 9 which deals with Islam and traditional Muslim education has been substantially revised The subtitle of the Third Edition has been changed to Indigenous Approaches to Educational Thought and Practice reflecting not so much a change in the emphases found in the book but rather a recognition of the growing scholarly interest in indigenous peoples their languages cultures and histories Various points throughout the text have been expanded and clarified and chapters have been updated as needed

**The Aztec Kings** Susan D. Gillespie,2022-03-08 Scholars have long viewed histories of the Aztecs either as flawed chronologies

plagued by internal inconsistencies and intersource discrepancies or as legends that indiscriminately mingle reality with the supernatural But this new work draws fresh conclusions from these documents proposing that Aztec dynastic history was recast by its sixteenth century recorders not merely to glorify ancestors but to make sense out of the trauma of conquest and colonialism The Aztec Kings is the first major study to take into account the Aztec cyclical conception of time which required that history constantly be reinterpreted to achieve continuity between past and present and to treat indigenous historical traditions as symbolic statements in narrative form Susan Gillespie focuses on the dynastic history of the Mexica of Tenochtitlan whose stories reveal how the Aztecs used history to construct elaborate and reify ideas about the nature of rulership and the cyclical nature of the cosmos and how they projected the Spanish conquest deep into the Aztec past in order to make history accommodate that event By demonstrating that most of Aztec history is nonliteral she sheds new light on Aztec culture and on the function of history in society By relating the cyclical structure of Aztec dynastic history to similar traditions of African and Polynesian peoples she introduces a broader perspective on the function of history in society and on how and why history must change *The Symbolism in the Plastic and Pictorial Representations of Ancient Mexico* Jacqueline de Durand-Forest, Marc Eisinger, 1993 **The Aztec Templo Mayor** Antonio Serrato-Combe, 2001 The Templo Mayor was a concrete manifestation of this unique system of beliefs Antonio Serrato Combe s carefully researched graphic treatments of these architectural spaces are at once both novel and stunning Using computer generated three dimensional color imagery he presents a series of architectural topics ranging from site planning principles to building details *Catalog of the Cuban and Caribbean Library, University of Miami, Coral Gables, Florida* University of Miami.
