Black Camelot William L. Van Deburg, 2008-04-15 In the wake of the Kennedy era a new kind of ethnic hero emerged within African American popular culture Uniquely suited to the times burgeoning pop icons projected the values and beliefs of the Civil Rights and Black Power movements and reflected both the possibility and the actuality of a rapidly changing American landscape In *Black Camelot* William Van Deburg examines the dynamic rise of these new black champions the social and historical contexts in which they flourished and their powerful impact on the African American community Van Deburg manages the enviable feat of writing with flair within a standardized academic framework covering politics social issues and entertainment with equal aplomb Jonathan Pearl *Jazz Times* A fascinating thorough account of how African American icons of the 1960s and 70s have changed the course of American history An in depth even tempered analysis Van Deburg s witty lively and always grounded style entertains while it instructs *Publishers Weekly* *Killer Cop* Joseph Nazel, 1991-09 [The Blaxploitation Film and its Influence on the Image of African Americans](#) Tom Fengel, 2018-07-02 Seminar paper from the year 2014 in the subject Didactics for the subject English Literature Works grade 1 3 Dresden Technical University language English abstract In this paper it is my objective to examine the characterization of black Americans in Blaxploitation movies to evaluate its influence on the image of African Americans Not only the cinematic image is to be questioned in this concern but also the real impression these movies gave to

their viewers which also had an impact on the real life social experience. Thereby we can differentiate between the black image it produced for blacks and the impression it left on the white spectators. For this purpose I will firstly explain the phenomenon of Blaxploitation, its content and structure, and name some examples. After that the historical and social background of this genre is to be analyzed in order to explain how it could emerge and why it vanished as quickly as it came into existence. The depiction of African Americans in film before the 1970s is as important for further comprehension as is the rising political consciousness in the 1960s United States of America which found expression in the Civil Rights Movement. After I have shown the background knowledge concerning Blaxploitation, the description of the image of black people depicted in these movies will follow, by analyzing the film *Shaft* and collecting other significant characteristics of this illustration in the genre in general using the literature on this topic. The analysis will be divided into a plot analysis and a film analysis whereby the plot will show characteristics which are visible by a mere reflection of the storyline and setting. The film analysis afterwards will have to find said aspects in selected scenes from the movie itself. As the most appropriate books for the paper's intention, I chose *Framing Blackness* by Ed Guerrero and *Black and White Media* by Karen Ross. Another interesting work which suits as an informal guide to various Blaxploitation films is the book *That's Blaxploitation* by Darius James. Furthermore, the role and portrayal of women in these films is to be observed concerning the books by Ross and Guerrero and the analysis of *Shaft*. On this basis, I want to consider in the end whether the genre of Blaxploitation had a more positive or negative impact on the cinematic and real image of African Americans, whereas this conclusion will presumably not be a simple statement of good or bad. Moreover, it is to be seen whether and how it influenced the social life of African black citizens and the future cinematic illustration of African Americanism.

Black Action Films James Robert Parish, George H. Hill, 1989. From the late 1960s on, there has been one highly profitable movie genre that has received little or no critical attention or documentation: black action pictures. These are very popular, slam-bang, heavy-duty ethnic action feature films like *Beverly Hills Cop*, *Blacula*, *Cleopatra Jones*, *Foxy Brown*, *Greased Lightning*, *Shaft*, and *Superfly*. Here the genre is given its due in this comprehensive compilation of four filmmaking decades. For each of the 235 films, there are detailed filmographic data and full cast and credits listings, plus an essay interweaving a synopsis, contemporary critical quotes, production information, and an analysis of the film and its stars.

Black Lenses, Black Voices Mark A. Reid, 2005. *Black Lenses, Black Voices* is a provocative look at films directed and written—and sometimes produced—by African Americans as well as black-oriented films whose directors or screenwriters are not black. Mark Reid shows how certain films dramatize the contemporary African American community as a politically and economically diverse group, vastly different from film representations of the 1960s. Taking us through the development of African American independent filmmaking before and after World War II, he then illustrates the unique nature of African American family action, horror, female-centered, and independent films such as *Eve's Bayou*, *Jungle Fever*, *Shaft*, *Souls of Sin*, *Bones*, *Waiting to Exhale*, *Monster's Ball*, *Sankofa*, and
