Black Organizations Issues On Survival Techniques:

Black Organizations Lennox S. Yearwood,1980 **Building Health Coalitions in the Black Community** Ronald L. Braithwaite,Sandra E. Taylor,John N. Austin,1999-11-30 Examines a wide range of problems and issues associated with the phenomenon of coalition building for health promotion Building Health Coalitions in the Black Community , **African Americans in the South** Hans A. Baer,Yvonne Jones,1992 This volume reflects a new commitment by American anthropologists to engage in what has been called the anthropology of racism the analysis of systems of inequality based on biological differences Comprising nine papers and related commentary African Americans in the South examines racism class stratification and sexism as they bear on the African American struggle for social justice equality and cultural identity in the South The essays fall into three broad categories economic survival strategies health and reproductive problems and religious responses to the larger society Essays in the first category discuss African American teen pregnancy and mutual aid societies The second group focuses on health practices and knowledge among blacks in a Georgia town African American midwifery in North Carolina an AIDS education program in a Tennessee city and eating habits in rural North Carolina The essays in the last category emphasize the diversity of the African American religious experience by focusing on black Pentecostals Jews and Mormons in the South Together these writings constitute an important concerted first engagement of issues crucial to an understanding of the history and social life of the South **Color, Class & Country** Gay Young,Bette Dickerson,1994 On gender race and class **Racial Identity Theory** Chalmer E. Thompson,Robert T. Carter,2013-04-15 Racial identity theories have been in the psychological literature for nearly thirty years Unlike most references to racial identity however Thompson and Carter demonstrate the value of integrating RACE and IDENTITY as systematic components of human functioning The editors and their contributors show how the infusion of racial identity theory with other psychological models can successfully yield more holistic considerations of client functioning and well being Fully respecting the mutual influence of personal and environmental factors to explanations of individual and group functioning they apply complex theoretical notions to real life cases in psychological practice These authors contend that race is a pervasive and formidable force in society that affects the development and functioning of individuals and groups In a recursive fashion individuals and groups influence and indeed nurture the notion of race and societal racism Arguing that mental health practitioners are in key influential positions to pierce this cycle the authors provide evidence of how meaningful change can occur when racial identity theory is integrated into interventions that attempt to diminish the distress people experience in their lives The interventions illustrated in this volume are applied in various contexts including psychotherapy and counseling supervision family therapy support groups and organizational and institutional environments This book can serve the needs and interests of advanced level students and professionals in all mental health fields as well as researchers and scholars in such disciplines as organizational management and forensic psychology It can also be of value to anyone interested in the

systematic implementation of strategies to overcome problems of race

Gendered Domains Dorothy O. Helly, Susan M. Reverby, 2018-08-06 For over two centuries the notion that societies have been sharply divided into women's private and men's public spheres has been used both to describe and to prescribe social life. More recently it has been applied and critiqued by feminist scholars as an explanation for women's oppression. Spanning a rich array of historical contexts from medieval nunneries to Ottoman harems to Paris communes to electronics firms in today's Silicon Valley, the twenty essays collected here offer a pathbreaking reassessment of the significance of the concept of separate spheres. After a theoretical introduction by the editors, certain essays reexamine historians' definitions of public and private realms and show how the imposition of these categories often obscures the realities of power structures and the alterable nature of gender roles. Other chapters consider how the concept of separate domains has been used to control women's actions. Additional essays explore the limits of public-private distinctions, focusing on women's working lives, the role of the state in the family, and the ways in which women, including Native North Americans, African Americans in the birth control movement, and participants in the lesbian bar culture, have themselves reshaped the model of separate spheres. Making available the best papers on the public-private theme delivered at the 1987 Berkshire Conference on the History of Women, *Gendered Domains* will be welcomed by anyone interested in women's studies, including historians, political scientists, feminist theorists, anthropologists, sociologists, and philosophers.

Contemporary Issues In Leadership William E. Rosenbach, Robert L. Taylor, 1984-07-03 This anthology includes 21 papers from a variety of disciplines, all directed toward an understanding of leaders and leadership. Particular attention is given to the human dimensions of leadership: leadership values, lessons from great leaders, and the dilemmas and paradoxes leaders face. Individual chapters consider the will to lead, discipline, ethics, charisma, narcissism, vision, leadership development, military leaders, leaders in business, and followers. No index. c. Social Crisis and Social Demoralization Ronald Kuykendall, 2005 This alternative perspective on the problem of American race relations takes sharp aim at the issues of status, power, and political class. Arguing that the racial problem is a political class conflict that must be resolved through revolutionary struggle, this insightful exploration adeptly unravels the complex interrelationships of status, political repression, and social stratification involved in American race issues. As the social crisis of race relations threatens to boil over in 21st-century America, the content of this book is a critical look at the roots of the race problem as a power dynamic and asks what solutions, if any, seem possible.
