Bleeders Come First:

Bleeders Come First Colin Douglas, 1979 The Prevention of disease v. 1, 1903 *Casebook of a Community Internist* Hector M Baillie, 2023-06-06 Experience begets wisdom and wisdom informs change Patients are the best teachers he told a friend shortly before moving west The choice of a specialist career in community internal medicine came as a surprise to his colleagues Leaving the big city hospital would mean less access to clinical resources educational rounds house staff and practice support In short less stuff Academia might have offered more But Dr Baillie moved to Mission BC not because he wanted less He wanted to give rural Canadians more the benefit of his extensive training in their home town Most of his time in Mission BC was in solo practice working as internist and intensivist Given how much hands on work he had to do he says It was like an extended fellowship He saw the full spectrum of acute hospital medicine on the ward in the ER and in the ICU On call was heavy he figures he learned thirty years of medicine in fifteen When the hospital downsized dramatically in 2002 he moved to Nanaimo on Vancouver Island *Casebook of a Community Internist* reviews interesting and notable cases that came his way over decades It combines the storytelling of a memoir with his reflections on personal experience Medical students residents and fellows in training will enjoy these vignettes not only for their content but because they celebrate the joy of medical practice The public will appreciate the accessible and humorous overview of health and disease through a practitioner's eyes To study the phenomenon of disease without books is to sail an uncharted sea while to study books without patients is not to go to sea at all Osler 1901 **Once Upon a Time in Facilities Management**

Patricia McCarroll, John Hassard, 2024-09-23 What would the world of work look like if interpreted through the lens of the fairytale To answer this question *Once Upon a Time in Facilities Management* explores storied spaces and metaphorical archetypes in the study of business management and organization At its core the authors offer a diagnostic approach for the study of work organization that links management theory storytelling and the business imaginary An important empirical focus is also included that explores a business service rarely studied in the management literature *Facilities Management* FM a secondary service of non core and increasingly outsourced organizational functions An in depth appreciation of FM is provided that assesses the people practices and processes of the service in a study that also highlights the characteristic liminality of the sector's professional activities Emphasis is placed on illuminating the storytelling nature of the service using primarily the genre of fairytales to identify representational archetypes including queen shadow sage trickster adventurer and eternal child within FM's storied space In the process three central characters essentially modes of FM delivery are identified the professional consultant the external service provider and the in house function with these forming the structural basis of fairytales explaining the culture and symbolism of FM as a business service The authors conclude by extrapolating findings from the study to inform a discussion of the contributions of folkloric analysis to organization theory explicitly and our understanding of business and management practice more widely *A Life of Breath* Rob

Niven, 2023-07-21 Jamie is a respiratory doctor working on the front line After 12 months without catching the illness himself he finally gets infected from an unlikely source He struggles to come to terms with his own first experiences of the breathlessness that has been the focus of his working life He also has to reflect on his own potential mortality Neither are a comfortable ride He has had a hugely successful 35 year career which has taken him to the very top of his specialist field At the same time we meet the shy gauche and naive first year doctor who could never imagine the achievements ahead We read the disastrous humorous and unbelievable escapades which mould his career whilst realising that a successful personal life does not necessarily match that of the career The author believes the public has fallen out of love with their medical professionals and in writing this part biography part fictional account of one doctor's story he hopes to put this right You should laugh cry and cringe in approximately equal doses but you might not be able to look your own doctor squarely in the eye with quite the same perspective again

Aspects of Identity Manfred Malzahn, 1984 In spite of the loss of political independence Scotland has remained an identifiable cultural entity to the present day This study examines Scottish fiction as an expression of the country's national self consciousness at a time when the debate about Scotland's survival as a nation was particularly vivid i.e. the years before and after the referendum on a Scottish Assembly in 1979 Distinctive themes and images of contemporary Scottish fiction are outlined in an analysis of thirty three novels published between 1978 and 1981
