Oliver,2013-06-10 The unleashing of the French Revolution in 1789 resulted in the acceleration of time coupled with an inability to predict what might happen next As unprecedented events outpaced the days those caught up in the whirlwind had little time to make judicious decisions about which course of action to follow The lack of reliable information and delays in communication between Paris and the provinces only exacerbated the situation Consequently some fled into exile in Europe and the United States while others remained to take advantage of new opportunities provided by the revolutionary government Between 1789 and 1794 the government moved from a position of hopeful cooperation to one of desperate measures instigated during the Terror of 1793 1794 As a result those French citizens who had fled early in the revolution including many aristocrats and the king s brothers as well as the artist Elisabeth Vigee LeBrun could not return until many years later while those who had remained such as Vig e LeBrun s husband the art dealer Jean Baptiste Pierre LeBrun as well as the artist Jacques Louis David the writers S bastien Chamfort and Andr Ch nier and expelled Girondin deputies chose survival strategies that they hoped would be successful For all those concerned timing was key to survival and those who lived found that they had crossed a bridge between the Ancien R gime and the beginning of the modern world It would not be possible to grasp the full import of the period between 1789 and 1795 until time had decelerated to a more reasonable level after the fall of Robespierre in 1794 Yet few could have then imagined that almost one hundred years would pass before a stable French republic would be established **J.-P. Brissot** Jacques-Pierre Brissot de Warville,1912 **Considerations on the Relative Situation of France, and the United States of America: ... Translated from the French of Etienne Claviere, and J.P. Brissot de Warville** Étienne Clavière,Jacques-Pierre Brissot de Warville,1788 The Enlightenment that Failed Jonathan I. Israel,2019-11-28 The Enlightenment that Failed explores the growing rift between those Enlightenment trends and initiatives that appealed exclusively to elites and those aspiring to enlighten all of society by raising mankind s awareness freedoms and educational level generally Jonathan I Israel explains why the democratic and

radical secularizing tendency of the Western Enlightenment after gaining some notable successes during the revolutionary era 1775-1820 in numerous countries especially in Europe, North America and Spanish America ultimately failed. He argues that a populist Robespierriste tendency sharply at odds with democratic values and freedom of expression gained an ideological advantage in France and that the negative reaction this generally provoked caused a more general anti-Enlightenment reaction: a surging anti-intellectualism combined with forms of religious revival that largely undermined the longings of the deprived, underprivileged and disadvantaged and ended by helping, albeit often unwittingly, conservative anti-Enlightenment ideologies to dominate the scene. The Enlightenment that Failed relates both the American and the French revolutions to the Enlightenment in a markedly different fashion from how this is usually done, showing how both great revolutions were fundamentally split between bitterly opposed and utterly incompatible ideological tendencies. Radical Enlightenment, which had been an effective ideological challenge to the prevailing monarchical aristocratic status quo, was weakened then almost entirely derailed and displaced from the Western consciousness in the 1830s and 1840s by the rise of Marxism and other forms of socialism.

The French Book Trade in Enlightenment Europe I Mark Curran, 2018-08-09

This volume is a ground-breaking contribution to enlightenment studies and the international and cross-cultural history of print. The result of a five-year research project, the volume traces the output and dissemination of books and how reading tastes changed in the years 1769-1794. Mapping the book trade of the Soci t  Typographique de Neuch tel (STN), a Swiss publisher/wholesaler which operated throughout Europe, the authors reconstruct the cosmopolitan elite culture of the later enlightenment, incorporating many engaging case studies. The STN's archives are uniquely rich in both detail and range, and while these archives have long attracted book historians, notably Robert Darnton, a leading scholar of the Enlightenment, existing work is fragmentary and limited in scope. By means of comparative study, the author considers the entire book market across Europe, making local, regional and chronological nuances based on advanced taxonomies of subject content, author information, markers of illegality and much more. This volume is in short the most diverse and detailed study of the late 18th-century book trade yet, while offering fresh insights into the enlightenment.
