analysis of the 2001 and 2005 elections It re presents the influential theory of market sales and product oriented parties discussing the potential and the limits of consumerism and the need to blend business concepts with a traditional understanding of politics Lees Marshment examines Blair s New Labor Government in order to draw out lessons on delivery maintaining market intelligence and the effect of changing to a leadership approach that goes against country and party Analysis of the Conservatives in opposition shows how the best intentions of party leaders to implement a market orientation can be thwarted by internal resistance and traditional party elites Providing a more reflective and critical analysis the second edition offers a more nuanced discussion on how political parties can not only win elections but govern successfully
