New England Magazine ,1898 **The Illustrated London News** ,1928 **The Land of Britain** Laurence Dudley Stamp,1950 **British Literature and the Life of Institutions** Benjamin Kohlmann,2021-11-25 British Literature and the Life of Institutions charts a literary prehistory of the welfare state in Britain around 1900 but it also marks a major intervention in current theoretical debates about critique and the dialectical imagination By placing literary studies in dialogue with political theory philosophy and the history of ideas the book reclaims a substantive reformist language that we have ignored to our own loss This reformist idiom made it possible to imagine the state as a speculative and aspirational idea as a fully realized form of life rather than as an uninspiring ensemble of administrative procedures and bureaucratic processes This volume traces the resonances of this idiom from the Victorian period to modernism ranging from Mary Augusta Ward George Gissing and H G Wells to Edward Carpenter E M Forster and Virginia Woolf Compared to this reformist language the economism that dominates current debates about the welfare state signals an impoverishment that is at once intellectual cultural and political Critiquing the shortcomings of the welfare state comes naturally to us but we often struggle to offer up convincing defences of its principles and aims This book intervenes in these debates by urging a richer understanding of critique if we want to defend the state Kohlmann argues we need to learn to think about it again **The Strand Magazine** George Newnes,1909 **The Nation** ,1899 *Syren and Shipping Illustrated* ,1928 Strand Magazine ,1905 **The subject of Britain, 1603-25** Christopher Ivic,2020-11-03 The subject of Britain analyses key seventeenth century texts by Bacon Jonson and Shakespeare within the context of the English reign of King James VI and I whose desire to create a united Britain prompted serious reflection on questions of nationhood This book traces writing on Britain and Britishness in succession literature panegyric Union tracts and treatises play texts and atlases Focusing on texts printed in London and Edinburgh as well as manuscript material that circulated within and across Britain and Ireland this book sheds valuable light on texts in relation to the wider geopolitical context that informed their production Combining literary criticism with political analysis and book history The subject of Britain offers a fresh approach to a significant moment in British history and will appeal to postgraduates and undergraduates of early modern British literary history
