Pharmacy and Professionalization in the British Empire, 1780-1970
Stuart Anderson,2021-10-22 Offering a valuable resource for medical and other historians this book explores the processes by which pharmacy in Britain and its colonies separated from medicine and made the transition from trade to profession during the nineteenth and twentieth centuries When the Pharmaceutical Society of Great Britain was founded in 1841 its founders considered pharmacy to be a branch of medicine However the 1852 Pharmacy Act made the exclusion of pharmacists from the medical profession inevitable and in 1864 the General Medical Council decided that pharmacy legislation was best left to pharmacists themselves Yet across the Empire pharmacy struggled to establish itself as an autonomous profession with doctors in many colonies reluctant to surrender control over pharmacy In this book the author traces the professionalization of pharmacy by exploring issues including collective action by pharmacists the role of the state the passage of legislation the extension of education and its separation from medicine The author considers the extent to which the British model of pharmacy shaped pharmacy in the Empire exploring the situation in the Divisions of Empire where the 1914 British Pharmacopoeia applied Canada the West Indies the Mediterranean colonies the colonies in West and South Africa India and the Eastern colonies Australia New Zealand and the Western Pacific Islands This insightful and wide ranging book offers a unique history of British pharmaceutical policy and practice within the colonial world and provides a firm foundation for further studies in this under researched aspect of the history of medicine

Barbarians and Civilization in International Relations Mark B. Salter,2002-09-20 The terrorist attacks in New York and Washington have led to popular conceptions of Muslims as terrorists Some commentators have harked back to the Clash of Civilizations argument outlined by

Samuel Huntington which argued that after the collapse of the Cold War culture would become the main axis of conflict for civilisational alliances Mark Salter takes issue with Huntington's theory and explains how the terms of his argument are part of an imperialist discourse that casts other civilisations as essentially barbarian Although many commentators have engaged with Huntington's claims few have pursued the political implications of his argument *Barbarians and Civilisation* offers a decisive exploration of the colonial rhetoric inherent in current political discourse Charting the usefulness of concepts of culture and identity for understanding world politics Salter brilliantly illustrates the benefits and the limitations of the civilised barbarian dichotomy in international relations *Harriet Martineau and the Irish Question* Deborah Anna Logan, 2012

Aside from *Letters from Ireland* and *Endowed Schools of Ireland* Harriet Martineau wrote an additional thirty eight articles about Ireland for London's *Daily News* between 1852 and 1866 plus another thirteen articles for *Household Words* *Atlantic Monthly* *Once a Week* *Westminster Review* and *New York Evening Post* It is those uncollected articles that are the focus of this study and that compliment her earlier work by providing subsequent commentary on Ireland's post famine reconstruction period Whereas *Letters from Ireland 1852* is a structured sociological travel memoir meant for both periodical and volume publication and *Endowed Schools 1858* addresses a specific aspect of Irish education reform these articles chart the course of economic and social progress in post famine Ireland in terms of industry public works economy and agriculture They also record the growth of Irish nationalism in America and Ireland while exploring the question of Ireland's political representation during this crucial pre independence period Points highlighted in this study include Martineau's unshakable optimism about the economic and social recovery of post famine Ireland her steady refusal to consider repeal of the Union as a viable option for remedying Ireland's troubles and her insistence that Ireland's problems were social not political Treating social issues as the primary ailment and politics as merely a symptom Martineau's writing on these topics provides important insights into the challenges facing Ireland during its transition from a feudal society to a modern independent nation during the period of the British Empire's greatest expansion and swift demise There are five components comprising her writing on Ireland *Ireland Illustrations of Political Economy 1832* *History of the Peace 1849-51* *Letters from Ireland 1852* *Endowed Schools of Ireland 1858* and *the Condition of Post famine Ireland 1852-66* It is the latter that is the focus of this volume *Exporting empire* Christopher Prior, 2017-03-01

For Africans rank and file colonial officials were the most visible manifestation of British imperial power But in spite of their importance in administering such vast imperial territories the attitudes of officials who served between the end of the nineteenth century and the Second World War as well as what shaped such attitudes have yet to be examined in any systematic way In this original and revisionist work Prior draws upon an enormous array of private and official papers to address some key questions about the colonial services How did officials education and training affect the ways that they engaged with Africa How did officials relate to one another How did officials seek to understand Africa and Africans How did they respond to infrastructural change How did

they deal with anti colonial nationalism This work will be of value to students and lecturers alike interested in British imperial and African history *Imperialism, Race and Resistance* Barbara Bush,2002-01-04 Imperialism Race and Resistance marks an important new development in the study of British and imperial interwar history Focusing on Britain West Africa and South Africa Imperialism Race and Resistance charts the growth of anti colonial resistance and opposition to racism in the prelude to the post colonial era The complex nature of imperial power is explored as well as its impact on the lives and struggles of black men and women in Africa and the African diaspora Barbara Bush argues that tensions between white dreams of power and black dreams of freedom were seminal in transforming Britain's relationship with Africa in an era bounded by global war and shaped by ideological conflict Newspapers and Empire in Ireland and Britain Simon James Potter,2004 These essays explore the varied attitudes towards empire once sustained by different groups in Ireland England Wales and Scotland and by their diasporic descendants They also examine the images of the British Empire that were projected by newspapers and periodicals in Ireland and Britain 1996 Massimo Mastrogregori,2014-02-21 Annually published since 1930 the International bibliography of Historical Sciences IBOHS is an international bibliography of the most important historical monographs and periodical articles published throughout the world which deal with history from the earliest to the most recent times The works are arranged systematically according to period region or historical discipline and within this classification alphabetically The bibliography contains a geographical index and indexes of persons and authors *Bibliography of Imperial, Colonial, and Commonwealth History Since 1600* Andrew N. Porter,2002 The twentieth century witnessed an unprecedented growth of research and publication on the history of Britain's empire the Commonwealth and British expansion overseas Historical work by area specialists has transformed the state of knowledge concerning colonial North America India the Caribbean sub Saharan Africa South and South East Asia the Pacific and Australasia Much has been written about Britain's interests and presence in areas and societies never formally subjected to British rule such as Latin America and the Middle and Far East Most recently a preoccupation with the reciprocal impact of overseas expansion and colonial possessions on Britain itself has produced a rapidly growing historiography Publication on this scale has made it virtually impossible for anyone either to keep track of the results or to follow up particular interests Britain's overseas history has never been well supplied with comprehensive bibliographical aids and despite extensive public interest in the subject the position has steadily worsened Following the recent Oxford History of the British Empire this volume is therefore designed to provide a general source of reference and bibliographical guidance at once wide ranging up to date and accessible *Royal Historical Society Annual Bibliography of British and Irish History* Royal Historical Society (Great Britain),1997 The Royal Historical Society's Annual Bibliography of British and Irish History provides a comprehensive and authoritative survey of books and articles on historical topics published in a single calendar year The volume covers all periods of British and Irish history from Roman Britain to the late twentieth century and also includes a section on imperial

and commonwealth history It is the most complete and up to date bibliography of its type and an indispensable tool for historians *Mythologies of the (M)otherland* Evelyne Hanquart-Turner,2004 **Administering the Empire, 1801-1968** Mandy Banton,2008 This important new guide is an introduction to the records of British government departments responsible for the administration of colonial affairs and now held in The National Archives of the United Kingdom It covers the period from about 1801 to 1966 It has been planned as a user friendly guide concentrating on the organisation of the records the information they are likely to provide and how to use the contemporary finding aids It also provides an outline of the expansion of the British empire during the period and discusses the organisation of colonial governments **The British Empire** ,1919 *Empire, Welfare State, Europe* Trevor Owen Lloyd,2002 Review from previous edition an admirable text informed provocative and highly readable for any course on twentieth century Britain Journal of Modern History a very readable book in a style that lends itself to its subject matter General Education covers an extremely difficult period in some depth and yet goes far beyond the political aspects to study the social and cultural life History Today This fifth edition of *Empire Welfare State Europe* has been revised and updated to provide a comprehensive history of the United Kingdom from the decline of the Empire to the general election of May 2001 *The Founding of Pakistan* Roger D.
