Beyond Belief Roger Cross, Avon Hudson, 2005 This provocative historical work provides a voice for the forgotten victims of the British atomic bomb tests conducted in Australia during the 1950s Raising disturbing questions about the authorities who conducted the tests this investigative work reveals how successive British and Australian governments have denied their understanding of the dangers of ionizing radiation in the 1950s Uncovering scenarios in which government scientists employed to monitor the tests were given protective clothing while military personnel and workers were left unprotected and exposed to a simulated theatre of atomic war this work places Australia's forgotten atomic tragedy into a global context

Atomic Thunder Elizabeth Tynan, 2018-07-30 An in depth account of Great Britain's atomic testing efforts in South Australia in the 1950s and 60s and its effects British nuclear testing took place at Maralinga South Australia between 1956 and 1963 after Australian Prime Minister Robert Menzies had handed over 3 200 square kilometres of open desert to the British Government without informing his own people The atomic weapons test series wreaked havoc on Indigenous communities and turned the land into a radioactive wasteland How did it come to pass that a democracy such as Australia suddenly found itself hosting another country's nuclear program And why has it continued to be shrouded in mystery even decades after the atomic thunder clouds stopped rolling across the South Australian test site In this meticulously researched and shocking work journalist and academic Elizabeth Tynan reveals the truth of what really happened at Maralinga and the devastating consequences of what took place there not to mention the mess that was left behind Praise for Atomic Thunder Compulsive reading Make that compulsory This is a brilliant book Philip Adams
